RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial. Planning Commission recommends Approval.

The proposed land use amendment from “Suburban Tier” to “General Urban Tier” is requested to rezone the property to “MF-33” Multi-Family District. The proposed “General Urban Tier” is inappropriate and inconsistent with abutting land uses. Surrounding future land use designations consist of “Suburban Tier”, “Natural Tier”, and “Agribusiness RIMSE Tier” with large vacant lots in between industrial uses. Residential uses are not commonly located in close proximity to industrial uses. Additionally, the existing “C-2” Commercial District was purposefully zoned for commercial development along Poteet Jourdanton Highway to provide goods and services to existing and surrounding uses and act as buffer between the residential development and the industrial uses.

Sector Plan Criteria for review:

- The recommended land use pattern identified in the Heritage South Sector Land Use Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Heritage South Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the Heritage South Sector Plan.

The amendment will adversely impact a portion of, or the entire Planning Area by;

- Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
- Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
- Creating activities that are not compatible with adjacent neighboring uses.
- Significantly alter recreational amenities such as open space, parks, and trails.
