RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the IH-10 East Corridor Perimeter Plan and is currently designated as Urban Living in the future land use component of the plan. The requested “C-2 CD” base zoning district is consistent with the future land use designation.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. Surrounding properties are zoned “NP-10” Neighborhood Preservation District, “C-2” Commercial District, and “I-1” General Industrial District.
3. **Suitability as Presently Zoned:** The existing “C-2 CD” Commercial District with a Conditional Use for Truck Sales, Service, Maintenance and Storage is an appropriate zoning for the property and surrounding area. The proposed “C-2 CD” Commercial District with a Conditional Use for Machinery, Tools and Construction Equipment Sales and Service is also appropriate. The request to rezone is to develop a construction equipment dealership. The property is appropriately located along an interstate highway, which can accommodate commercial traffic, and is abutting “C-2” and “I-1” zoned properties. Additionally, the structure to be utilized for the development is existing and can accommodate the requested use. The applicant will have to adhere to the prescribed site plan required for Conditional Use zoning, and any deviation from the approved document could potentially warrant additional council consideration.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not appear to conflict with any public policy objectives of the IH-10 East Perimeter Plan:
 - Goal 3: Improve the Corridor - Analyze design standards that can be implanted along the IH 10 East Corridor.

- Objective: More intense land uses may be allowed in less intense land use categories subject to conditional zoning or a specific use authorization that would facilitate context-sensitive design in accordance with the plan's goals and objectives.
6. **Size of Tract:** The subject property is 4.93 acres, which can reasonably accommodate the proposed residential development.
 7. **Other Factors:** The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

The applicant is rezoning to develop a construction equipment dealership.

The applicant has submitted a site plan in accordance with the requirements of the code. The site plan indicates commercial and industrial uses.

One access may be allowed onto IH 10 frontage road, due to spacing. TxDOT coordination would be required.
