FISCAL IMPACT:

None.

PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

Subject property is not located within a Regional Center or within ½ a mile from a Premium Transit Corridor.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the North Sector Plan, adopted in August 2010, and is currently designated as “Suburban Tier” in the future land use component of the plan. The requested “C-2 S” base zoning district is consistent with the future land use designation.
2. **Adverse Impacts on Neighboring Lands:** Staff does find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is inconsistent with the established development pattern of the surrounding area. Surrounding properties are “R-6” Residential Single-Family District, “C-2” Commercial District, and “C-3” General Commercial District.
3. **Suitability as Presently Zoned:** The existing “C-2” Commercial District is an appropriate zoning for the property and surrounding area. The proposed “C-2 S” Commercial District is not an appropriate. Staff has concerns that the proposed use for a carwash is inappropriately located abutting established single-family residential dwellings. There is limited space for an appropriate buffer between the vacuums and machines from the established homes. There is no adequate buffering to protect nearby residents from noise and carwash traffic and car queuing areas.
4. **Health, Safety and Welfare:** Staff has found indication of likely adverse effects on the public health, safety, or welfare. There may be issues with noise and high traffic volume abutting single-family homes.
5. **Public Policy:** The request does appear to conflict with any public policy. Relevant Goals and Policies of the North Sector Plan may include:
 - **Land use Strategy LU-1.1:** Locate buffers between high density/intensity land uses that are potentially incompatible.
 - **Land use Strategy LU-6.5:** Encourage development that is visually and functionally compatible with its surrounding neighborhoods by maintaining a massing and density of development that is compatible with adjacent developed neighborhoods.

Relevant Goals and Policies of the SA Tomorrow Comprehensive Plan may include:

- **GCF Goal 5:** Growth and city form support improved livability in existing and future neighborhoods.
 - **GCF Goal 7:** Development practices that minimize, mitigate or avoid negative impacts on the city's natural resources, water supply, water quality, surface waterways and air quality.
- 6. Size of Tract:** The 0.6226 acre site is not of sufficient size to accommodate the proposed commercial development.
- 7. Other Factors:** The purpose of the Specific Use Authorization is to provide for certain uses which, because of their unique characteristics or potential impacts on adjacent land uses, are not generally permitted in certain zoning districts as a matter of right, but may, under the right set of circumstances and conditions be acceptable in certain specific locations.

The applicant is rezoning to develop a car wash.

The applicant has submitted a site plan in accordance with the requirements of the code. The site plan indicates commercial uses.
