Describe your Educational history.	<p>Although I was born in San Antonio, my family spent a handful of years living in Oklahoma. My family moved back to San Antonio when I was in the 4th Grade, and I spent the rest of my grade school education in the Northeast Independent School District. I attended Wilderness Oak Elementary, Jose M. Lopez Middle School and spent three years at Ronald Reagan High School before I graduated Summa Cum Laude from Winston Churchill High School in the Class of 2014. I attended Texas A and M University where I graduated with a Bachelors and Masters degree in Accounting from the Professional Program of Accounting, Group 26. During graduate school, I focused on Entrepreneurial Leadership where I took classes taught by the leaders of the McFerrin Center for Entrepreneurship. My educational history has had a profound impact on my life. The most important lesson that I learned, which has led me to apply to a position such as this, is that we all have the ability to play a role in our communities. Our days shouldnt just end in the office or at the library and just a couple hours of our time can have a positive impact on the lives of others.</p>
Describe your Professional History & Certification designations (Current and historical).	<p>During my junior year, I had internship offers from three of the Big 4 Accounting firms. Two of the firms offered me jobs in Houston, TX and the third was here in San Antonio at Ernst and Young LLP (EY). I chose to intern with EY during my senior year and received a full time offer at the end of the internship. I began my career in January 2020 and enjoyed a few months of normal before COVID changed everything. Two months into my first job and with no prior experience to lean on, COVID forced us to become flexible and live with an uncertain picture of what the future would look like. I believe these years have taught us some very important lessons. The most valuable lesson I learned is that interaction with others is the most important aspect of work and in life. Since then, I have become a key member of our San Antonio office and work from our downtown office almost every day of the work week. My group specializes in Private Client Services in our Tax service line. My clients are high net worth individuals where we provide them with whatever tax services they need. We assist them with their private companies,</p>

investment partnerships, foundations, family trusts and their personal tax returns. We help advise on expansion, family planning and how they need to structure their operations. We have an apprenticeship model at our company. Starting out as a Staff Associate, you are forced to learn on the job quickly. Its a great example of, trying to drink through a fire hose. This means long hours, learning how to be resourceful and constantly learning. Once I was promoted to a Senior Associate the job quickly turns to becoming a teacher. This presents a whole new challenge and has been the most difficult transition that Ive had to make so far. Recently I have been promoted to the role of Manager. Even though you get plenty of management experience as a Senior Associate, the Manager role is the challenge Im most excited for. This new role means becoming the direct contact for clients, increased roles outside of normal work and taking more ownership of client engagements. During the spring and summer of 2024, I studied and passed all parts of the Certified Public Accountant exams. Passing all four exams within 6 months was no easy task. It took a lot more long hours after work and a lot of dedication. My application is currently pending the with State board. I have always felt like I could be a leader in my office from the time I started working. Being present in the office plays a large role in becoming a leader. Even though we have a flexible work from home policy, I am working from the office at least three days a week but more often four or five days a week. You become very disconnected from most of the people in your office when you work from home. I have made a commitment to be present and connected with my coworkers. Because of this commitment, I have conversations and lunches with people outside my service line. Im also the person in our office who networks with college students, potential new hires and any clients who visit our office. Im heavily involved in campus recruiting, specifically at Texas A and M. Im also on the office wide Social Committee where we plan events. The event that I take the most ownership in each year is EY Golf Day. EY Golf Day has been a tradition in the San Antonio office for over 25 years. Our office takes the Thursday before Memorial Day and a 100 to 125 of employees play a 9-hole scramble, usually at the Quarry Golf Club.

Describe your Volunteer Experience & Community Service

I am very fortunate to work for a company that has a long history in our city. EY just celebrated 100 years in San Antonio. Because of that, we have a very close relationship with the community and run many volunteer programs. Every year our office takes a day off work, and we go out to the community to give our time to make a difference. We have about twelve different places we go to serve. The past three years, I have gone to the Guadalupe Community Center on this service day. There I have done an array of services from painting, organizing spaces, and installing irrigation in a community garden. This community center provides after school care for elementary aged children and hands out boxes of food to families during the holidays. My family also has a history of serving the community. As a family, we served at the HEB Feast of sharing for many years. My mother, who was a Pediatric Oncology nurse at Santa Rosa

Childrens for 20 years, has a huge heart for serving others. She is the one has always made sure we know how blessed our family is and to make sure that serving others is a priority. Between high school and college, I went on a handful of service trips with my church, Concordia Lutheran. Our Church facilitates two large mission trips a year. The first one I took part of was to New Orleans, Louisiana to help the community rebuild after Hurricane Katrina. It had been sometime after the Hurricane hit the city but there was still a lot of work to be done. Our Church had a close relationship with that community and for me it was a very impactful as my first service trip. After New Orleans, we went to Moore, Oklahoma for two years to help rebuild homes after devastating tornadoes. My favorite and most impactful service trip I have taken is when I went to a community in the Costa Rican rainforest. Our Church developed a relationship with a village community near Shiroles, Costa Rica. There we spent over a week in the village building much needed structures for the community. Starting in the fall of 2023, I started to volunteer at the First Tee of Greater San Antonio helping coach the after school classes for ages 7-9 and will continue to volunteer starting this fall. I have found this to be an amazing experience. The First Tee in general is a great organization but Im especially proud of the First Tee in San Antonio. I think it plays an important role in our citys golf culture. Ive lived next to the First Tee Polo Field since May 2020 and ultimately, I wanted to make sure that I could give back everything that that driving range gave to me. When I moved to San Antonio after college I was around an 8-9 handicap and three years later I was playing in the Texas Mid-Amateur and I believe that wouldnt be possible without the driving range at the First Tee.

Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:

There are two main reasons for seeking appointment to serve on the Board of the Municipal Golf Association. First, my passion for San Antonio Golf and my passion to make a difference. I believe serving on this Board is where these two passions intersect. I have been an active member in the San Antonio Golf community for the last five years. This community is so unique and has allowed me to pursue my passion. I had been a Die Hard member on the Trail from 2019 to 2024. The Trail is one of the only golf associations that is affordable for a recent college graduate and for that, I am forever grateful. The Trail community is a true melting pot and I believe we should receive more recognition for our diversity on a national scale. Playing on the Trail also has given me the confidence to take on competitive golf year-round. Ive played on the South Texas Am Golf Tour for the last four years and have represented the Tour as a member of the South Texas Match Play Challenge each of the last four years. On a state scale, I was an Alternate for the 2022 Texas Amateur and played in the 2023 Texas Mid-Amateur. None of this would have been possible without the Trail providing affordable and accessible golf for a young professional. Aside from my passion for golf, I believe that serving on this Board would be a huge opportunity to make a difference. I chose to move to San Antonio post-graduation

	<p>because this is the community that I felt like I could make a difference in. Other cities are too large to have a true identity, but San Antonio is unique. Even though we have plenty of people, there are many things that unite everyone in the city. I believe that that our public golf community is one of those uniting aspects of our city. Continued stewardship and preservation of our public golf is only going to grow in importance over time. I believe that I would provide a young and unique perspective on how best to continue this stewardship of our golf community.</p>
