## **RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Denial.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on approval criteria below.

- 1. Consistency:** The subject property is located within the Greater Dellview Community Plan, adopted in 2005, and is currently designated as "Low Density Residential" in the future land use component of the plan. The requested "R-5" base zoning district is consistent with the future land use designation.
- 2. Adverse Impacts on Neighboring Lands:** Staff finds evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is not consistent with the established development pattern of the surrounding area. Surrounding properties are zoned "R-5", "R-4", "R-6" Residential Single-Family Districts, "C-1 CD" Light Commercial District with a Conditional Use for Auto Repair Facility, and "C-2P CD" Commercial Pedestrian District with a Conditional Use for Large Scale Printer.
- 3. Suitability as Presently Zoned:** The existing "R-5" Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed "R-5 CD" Residential Single-Family District with a Conditional Use for Noncommercial Parking Lot is not appropriate. Even though the subject property would retain a residential base zone but adding the "CD" Conditional Use for a noncommercial parking lot would create a precedent for future commercial encroachment within an established residential neighborhood. The applicant has provided a site plan however, there are concerns with the small lot size in regard to required front buffer yard requirements and circulation of vehicles.
- 4. Health, Safety and Welfare:** Staff has found indication of likely adverse effects on the public health, safety, or welfare.
- 5. Public Policy:** The request does appear to conflict with public policy. Relevant Goals and Policies of the SA Tomorrow Comprehensive Plan: - GCF Goal 5: Growth and city form support improved livability in existing and future neighborhoods. - GCF P1: Incentivize the development of housing and employment uses in the city's priority growth areas. - GCF P2: Identify and support catalyst projects which include a mix of housing types for a range of income levels, and which attract additional employment. - GCF P3: Invest in neighborhood amenities and infrastructure (including green infrastructure) that will attract new residents to priority growth areas. Relevant Goals and Objectives from the Greater Dellview Community Plan may include: - Goal 3 Commercial Development: Type, Form and Appearance Proactively promote best urban planning practices and ensure commercial environments that are clean, safe, attractive, compliant with city codes, and respectful of adjacent neighborhood residential uses. - Goal 5 Housing: Promote a community of abundant, diverse, affordable, and quality housing stock while diminishing obstacles to home ownership and long-term investment in the area. o Objective 5.2 Housing Design Standards and Certainty: Promote best

urban planning and design practices and ensure that housing upgrades and new developments are consistent with the characteristics of existing valued development.

6. **Size of Tract:** The 0.1354-acre site is of sufficient size to accommodate the proposed development.
7. **Other Factors:** The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions. The applicant is rezoning to develop a noncommercial parking lot. The applicant has submitted a site plan in accordance with the requirements of the code. The site plan indicates commercial uses.
