Comprehensive Plan

Comprehensive Plan Component: Kelly/South San PUEBLO Community Plan

Plan Adoption Date: 2010

Plan Goals: Goal 2: Community Character and the Environment – Ensure neighborhood compliance with basic City codes and work toward the beautification of the community.

Comprehensive Land Use Categories

Land Use Category: “Mixed Use”

Description of Land Use Category:

Mixed Use allows for a concentrated, well planned, and integrated blend of residential, retail, service, office, entertainment, leisure, and other related uses at increased densities. This use pattern creates a pedestrian and transit oriented rather than an automobile oriented environment. The integration of uses should occur within structures, as well as across the development site, with commercial uses situated primarily along the higher order roadways, and on the ground floor level of individual structures. A Mixed Use development should stress quality architecture and urban design features, including parks/plazas and landscaping in a safe, attractive, pedestrian and bicycle friendly environment. A majority of the ground floor façade should be composed of windows. Centralized parking areas should be located behind buildings. Mixed Use Centers should be linked to adjoining land uses with safe, attractive and convenient vehicular and pedestrian access.

Permitted Zoning Districts: NC, C-1, C-2P, O-1, O-2, MXD, TOD, IDZ, RM-4, RM-5, RM-6, MF-25, MF-33, MF-40

Comprehensive Land Use Categories

Land Use Category: “Low Density Residential”

Description of Land Use Category:

Low density residential land uses include single-family houses on individual lots. One accessory dwelling (granny flat or garage apartment) is permitted per lot and should reflect the appearance of the main structure. Certain non-residential activities such as schools, places of worship, and parks are appropriate within these areas and should be centrally located to provide easy access. Growth under this category of land use should be oriented toward the center of the neighborhood and located away from major arterials and high traffic areas and should ideally be within walking distance of elementary schools and neighborhood commercial uses.

Permitted Zoning Districts: R-4, R-5, R-6, R-20

Comprehensive Land Use Categories

Land Use Category: “Regional Commercial”

Description of Land Use Category:

This land use category includes high intensity commercial or automobile related uses that draw their customer base from a larger region, thus bringing more traffic and parking needs. Regional Commercial land uses are ideally located at the intersection of major arterials and highways or expressways, or along major transit system transfer nodes. These uses typically are 20 acres or greater in size. Examples of regional commercial uses include “big box” retail, large shopping centers like malls and “life-style centers”, large hotels and motels, major employment centers such as financial institutions, mid to high rise office complexes, large or specialty grocery stores, auto sales lots, and automotive repair centers.

Permitted Zoning Districts: NC, C-1, C-2, C-2P, C-3, O-1, O-2

Comprehensive Plan

Comprehensive Plan Component: Nogalitos/ South Zarzamora Community Plan

Plan Adoption Date: 2004

Plan Goals:

Goal 3 Economic Development

Improve the commercial corridors in the planning area in order to attract and support a mix of uses including professional offices, residences and a variety of retail shops that will meet residents’ daily needs and bring vitality to the area.

Objective 3.1 Diverse Businesses: Attract and support a variety of businesses in a walkable, mixed-use environment.

Objective 3.2 Business Character: Build upon the historic, walkable character of the Nogalitos corridor to create a unique place to walk for shopping, working, and relaxing.

Comprehensive Land Use Categories

Land Use Category: “Mixed Use”

Description of Land Use Category:

Mixed-use allows for a concentrated, well structured, and integrated blend of residential, retail, service, office, entertainment, leisure, and other related uses at increased densities. This use pattern creates a pedestrian and transit oriented rather than an automobile-oriented environment.

Comprehensive Land Use Categories

Land Use Category: “Regional Commercial”

Description of Land Use Category:

Regional Commercial development includes land uses that are automobile related or draw their customer base from a larger region, thus bringing more traffic and parking needs. The design of Regional Commercial developments should incorporate well-defined entrances, shared internal circulation, limited curb cuts to arterial streets, trees that shade ample sidewalks and parking lots, and monument signage. Regional Commercial centers should be linked to adjoining land uses with safe, attractive, and convenient vehicular and pedestrian access. Buffering is required if this

use abuts a residential use. Regional Commercial uses should be located at nodes formed by highways and major arterials, or two major arterials, and are typically 20 acres or greater in size.
