3.1 The Project consists of certain proposed public infrastructure on the District Property, as further described and depicted in Preliminary MDP-1 and Preliminary MDP-2 attached hereto as **Exhibits “E” and “F”**.

D. SECTION IV. CONSIDERATION AND TERMS is hereby amended as follows:

4.3 Voluntary Petition for Annexation. The Parties agree that this Agreement constitutes a voluntary petition to the City for annexation of the District Property for full purposes under the provisions of Subchapter C-3 of Chapter 43 as well as Subchapter G of Chapter 212 of the Code, which shall be deemed submitted to the City on the Effective Date of this Agreement. Subject to Section 4.2 above, the City may exercise its right to annex the District Property or any portion thereof (the “Annexation Area”) in its sole discretion upon default of this Agreement by the Owners, subject to the provisions of Section 6.3 and Section 6.4 of this Agreement or at the end of the term of this Agreement. The Parties further agree that this Agreement does not obligate the City to annex the entire District Property for limited or full purposes at any time.

4.5 Waiver. To the extent authorized by state and local laws, the Parties agree that the City is only obligated to perform those tasks set forth in Subchapter C-3 of Chapter 43 of the Code that are required when annexing property under that subchapter. Owners agree not to oppose any action taken by the City to annex the Annexation Area under this Agreement or under Subchapter C-3 of Chapter 43 of the Code and that any action taken by Owners in opposition of annexation of the District Property, or any portion thereof, shall constitute a violation of this Agreement.

4.12 The Parties agree that Owners shall pay the following in consideration of the City’s consent to the creation of the District:

4.12.1 a PID application fee in the amount of \$7,500.00.

4.12.2 a Special District Operations Assessment (“Assessment”) for lots constructed within the boundaries of Preliminary MDP-2.

4.12.3 The Assessment is due within thirty (30) days of the date of the annual report required in Section 23.4 of this Agreement. The Assessment will be calculated based on the number of residential and multifamily units (“Units”) completed the previous year as reflected in the annual report. Staff may verify the number of Units by using resources such as Bexar County Appraisal District parcel information, field inspections, site inspections, or other available means, for each phase of the Project. The amount of the Assessment may be modified based on the final number of Units that have been completed and verified by staff. The final

Assessment will be payable to the City within thirty (30) days of the date the annual report is due, and all Units have been verified by staff.

4.12.4 Owners currently estimate the Assessment for the lots within Preliminary MDP-2 will be One Hundred Twenty Thousand, Seven Hundred and Fifty and 00/100 (\$120,750.00) U.S. dollars.

4.12.5 The Assessment is based on the amount of One Hundred Seventy-Five and 00/100 (\$175.00) U.S. dollars per Unit.

4.12.6 Owners shall reimburse the City for all costs paid by City for recording of this Agreement and related documents in the Bexar County property records.

4.13 Strategic Partnership Agreement. The Parties agree and acknowledge that Owners will request the District to enter into a SPA with the City for the purpose of providing terms for limited and full purpose annexation and imposing and collecting sales and use taxes within commercial use areas of the District. A copy of the SPA is attached to this Agreement in substantial form as **Exhibit “H”**. In the event the District fails to adopt the SPA within eighteen (18) months of execution of this First Amendment, Owners agree that the Owners and/or developer of the District Property will not be entitled to reimbursement by the District for the construction of improvements necessary for the exercise of the District’s powers and duties of a road district and the power to provide water, wastewater or drainage facilities conferred under Chapter 382 of the Code and the County order creating the District. The Parties agree and acknowledge the eighteen (18) month SPA adoption timeframe outlined above is applicable to the District only and is satisfied upon the receipt of a resolution adopted by the District approving the SPA within eighteen (18) months of this Agreement’s execution.

4.13.1 If the SPA is adopted, Owners agrees that the District will reimburse the City for costs associated with the limited purpose annexation (“LPA”) and implementing the SPA; including recording the SPA in the Real Property Records of Bexar County, publications of public hearings, annexation ordinance, polling location notices for voters in LPA areas; and plan amendment and zoning fees for annexed land.

E. SECTION X. ENTIRE AGREEMENT is hereby amended as follows:

10.1 This Agreement embodies the complete agreement of the Parties hereto with regard to the subject matter contained herein, superseding all oral or written previous and contemporary agreements between the parties relating to matters herein.

10.2 All other terms, conditions, covenants and provisions of the Original Agreement, not specifically mentioned herein and revised by this document, are hereby retained in their entirety, unchanged, and shall remain in full force in effect for the duration of said Original Agreement.

Notwithstanding, the exhibits shall not constitute any binding commitment regarding, but not limited to, the final location of boundaries and improvements and infrastructure, such being of approximate location that may be from time to time by the Parties.

4.8 Owners agree that Owners will comply with all municipal rules, regulations, orders, ordinances and other local laws applicable to all properties within the City’s ETJ, during all phases of development and construction of the Project and during the term of this Agreement.

4.9 As applicable, and subject to Section 4.10 below, Owners shall comply with the requirements of Section 382.109 of the Code regarding road projects on the District Property, as described by Section 382.109 of the Code to the extent such requirements apply to properties located in the City’s ETJ.

4.10 Notwithstanding any provision herein to the contrary, the Parties agree and acknowledge that, in accordance with Section 212.172(g), this Agreement constitutes a permit under Chapter 245 of the Code.

4.11 The Parties agree and acknowledge that Section 382.201 of the Code, as it exists on the Effective Date of this Agreement, shall apply to this Agreement.

~~V. WRITTEN AGREEMENT REGARDING SERVICES~~

5.1 In the event the City annexes the Annexation Area pursuant to this Agreement, the Parties agree that this Section V of this Agreement shall constitute a Written Agreement Regarding Services required under Chapter 43, section 43.0672 of the Code; shall run with the land; and shall govern all municipal services to be provided to the Annexation Area. The City shall be under no further obligation to negotiate services with any subsequent owners of any property located or developed within the Annexation Area other than the services set forth herein, provided that upon annexation of the Annexation Area, if the municipal services have changed or otherwise include additional services not referenced herein, the City will provide all municipal services, except those stated herein, to the Annexation Area that apply to other properties located within the city limits within no more than 3 years from the date of annexation. The Agreement Regarding Services shall survive termination of this Agreement only to the extent the City annexes the Annexation Area pursuant to this Agreement.

In general this Agreement Regarding Services includes three service components: *(1) Annexation Service Requirements, (2) Additional Services and (3) a Capital Improvement Program.* Providing services includes having services provided by any method or means by which the City extends municipal services to any other area of the City. This may include causing or allowing private utilities, governmental entities and other public and private non-profit service organizations to provide such services by contract in whole or in part. It may also include separate agreements with associations or similar entities. Services are provided and fees are assessed in accordance with the City’s Code of Ordinances, as may be amended.

1. Annexation Service Requirements – The following services will be provided in the Annexation Area commencing on the effective date of the annexation for full purposes, unless

otherwise noted.

- A. Police Protection** – The San Antonio Police Department (SAPD) will provide protection and law enforcement services in the Annexation Area within the time frame established in section 5.1.

These services include:

- Routine patrols and responses;
- Handling of complaints and incident reports;
- Special units, such as traffic enforcement, criminal investigations, covert operations, K-9 Unit, Family Assistance Crisis Teams, Bomb Squad, and Special Weapons and Tactics Team (SWAT); and
- Any other services or programs provided to the citizens of San Antonio at the time of annexation.

The Annexation Area will become part of an existing patrol district based upon factors such as the size of the area, population, and the expected number of calls for service. These factors will also determine the need for hiring additional patrol officers to ensure all patrol districts are adequately staffed 24 hours a day, seven days a week, and to maintain an average response time. SAPD San Antonio Fear Free Environment Unit (SAFFE) officers will be available to meet as requested to discuss police issues.

Police Substations are responsible for a Patrol "Service Area," under the command of a Captain. These Service Areas are divided into Patrol Sections. The Patrol Sections, with supervisory responsibilities assigned to Sergeants, are divided into "Patrol Districts." The "Patrol Districts" are geographically defined areas established for several reasons, including but not limited to:

- Serving as a manpower distribution tool based on call volume, population, area size, and geographic variables;
- Providing a means of establishing primary responsibility to individual officers, during their tour of duty, for various activities within a specific geographic area; and
- Providing an efficient and effective means of assigning, identifying, and locating officers, within a generalized area, using currently available technology.

The Annexation Area will be served by the substation assigned to that geographic area. There is no specific number of officers that can be assigned to a patrol district. Patrol districts are staffed with at least one officer, 24 hours a day, seven days a week. Many times multiple officers are assigned to single districts.

Police services are initiated by on-sight officer activity, citizen requests, and any other means available. The most common means by which officers receive their assignments is through direct supervisory command and radio/computer transmissions by police dispatchers.

- B. Fire Protection and Emergency Medical Service (EMS)** – The San Antonio Fire Department (SAFD) will provide fire protection services and EMS service. Service will be

provided through the use of fire engines, ladder trucks, full-time and peak period EMS ambulances, Medical Officers and Chief Officers. SAFD will be providing fire protection and EMS from the station assigned to that geographic area.

C. Solid Waste Collection Services – Solid Waste Collection services are provided and fees are assessed in accordance with Chapter 14 of the City's Code of Ordinances, as may be amended. Fees for services are assessed monthly on CPS Energy Utility bills. If private collection services are used, the City solid waste fees will not be assessed.

Commercial Solid Waste Services – The City's Commercial collection for garbage are available on a case by case basis for qualifying businesses in a manner similar to residential services. Bulky item, brush and bagged leaf collections are not provided to businesses. If the City-provided commercial service is not desired, businesses may utilize private service providers.

D. Operation and Maintenance of Water and Wastewater Facilities – The District is entirely within the boundaries of Green Valley Special Utility District's (GVSUD) Certificate of Convenience and Necessity and therefore all water and wastewater facilities will be operated by GVSUD.

E. Operation and Maintenance of Roads and Streets, including Street Lighting – The Transportation and Capital Improvements Department (TCI) is responsible for the maintenance and repair of streets, bridges, alleys and related infrastructure within the City's jurisdiction. Curbs, sidewalks, driveway approaches, curb ramps, and other street infrastructures are constructed in accordance with the City and the Americans with Disability Act (ADA) standards. Service requests or community concerns for TCI's response, such as pothole and base and pavement repairs are initiated through the City's 311 call center or online services. These services include:

- Emergency Pavement Repair
- Street Base and Pavement Repair
- Preventative Street Maintenance
- Guard Post and Guard Rail Maintenance
- De-icing and Snow Removal Services
- Neighborhood Access and Mobility Program (NAMP)
- Emergency Street Closure Services
- Street Re-striping and Marking Services

Infrastructure Management Program (IMP) is a five-year rolling program which focuses on the maintenance of the City infrastructure. Service needs are identified city-wide and are scheduled for street maintenance, alley maintenance, drainage maintenance, sidewalks, traffic signals, pavement marking and Advance Transportation District (ATD) projects. The IMP provides the City a structured program schedule, potential for additional multiple year contract awards and improved utility coordination. During the budget process for each fiscal year of the City, the IMP is presented to City Council for approval. Amendments may occur

throughout the year due to coordination with utilities or unforeseen conditions, such as inclement weather. The goal of the IMP is to provide the best possible maintenance for the City.

Transportation Systems Management & Operations – If necessary TCI will provide regulatory signage services. Traffic signal, stop and all other regulatory studies are conducted in conjunction with growth of traffic volumes. Traffic signs, signals, and markings are installed in conformance with the Texas Manual on Uniform Traffic Control Devices. Faded, vandalized, or missing signs are replaced as needed. "Call back" service is provided 24 hours a day, 365 days a year for emergency repair of critical regulatory signs. Requests for signage should be called into the City's 311 Call Center.

Storm Water Utility – The Storm Water Utility is housed within the TCI Department. The Storm Water Utility is responsible for drainage services as well as the installation, operation, and maintenance of drainage infrastructure throughout San Antonio.

The Storm Water Utility Fee is intended to cover capital and maintenance expenses associated with drainage projects and fund operational services related to the Municipal Separate Storm Sewer System (MS4) Permit as required by Federal regulations. More information about the storm water rate plan is available at <http://www.sanantonio.gov/TCI/Projects/Storm-Water-Fee>

Street lighting – The planning of public streetlights is coordinated by the City's Development Services Department (DSD). CPS Energy will maintain public street lighting in accordance with the City's Policies. The City assumes the cost of electricity for public streetlights.

F. Operation and Maintenance of Parks, Playgrounds and Swimming Pools – Maintenance responsibilities for municipally owned parks, playgrounds, and swimming pools are the responsibility of the City. Any proposed or existing privately-owned parks, playgrounds, swimming pools, recreational facilities and common spaces in the Annexation Area are the responsibility of the property owner(s).

G. Operation and Maintenance of Any Other Publicly Owned Facility, Building, or Service – Should the City acquire any other facilities, buildings, or services necessary for municipal services for the Annexation Area, an appropriate City department will provide maintenance services for them.

2. Additional Services – Certain services, in addition to the above services, will be provided within the Annexation Area commencing on the effective date of the annexation for full purposes, unless otherwise noted. They are as follows:

- The Code and ordinances enforced by DSD are subject to changes by the City Council

B. Building and Other Permits – Incomplete construction must obtain building permits from DSD in accordance with the City codes. Incomplete construction implies that final inspections have not been conducted and approved. For new commercial construction, incomplete construction indicates approved final inspections for building, mechanical, plumbing, electric, fire, traffic, drainage, sidewalks, irrigation inspections have not been obtained. Other field inspections may be applicable for new commercial construction depending on the specific use and/or location of the project. Any required permits, including, but not limited to, building, trade, and sign permits may be applied for at the Cliff Morton Development and Business Services Center located at 1901 South Alamo Street, San Antonio, TX. In addition, as part of the permitting process, applicant will be required to adhere to the City's Tree and Landscape requirements. In accordance with the adopted Building Code, no person may occupy a building or a space without first obtaining a Certificate of Occupancy. Certificates of Occupancy may be applied for at the Cliff Morton Development and Business Services Center located at 1901 South Alamo Street, San Antonio, TX.
