### **RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the Medical Center Area Regional Center Plan, adopted in 2019, and is currently designated as Urban Mixed Use in the future

land use component of the plan. The requested “MF-25” base zoning district is consistent with the future land use designation.

2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.
3. **Suitability as Presently Zoned:** The existing “C-3R” General Commercial Restrictive Alcoholic Sales District is an appropriate zoning district for the property and surrounding area. The "MF-25" Low Density Multi-Family District is also an appropriate zoning district. The zoning proposal is to convert an existing assisted living facility into multi-family development. The proposed zoning is consistent with the existing residential uses within proximity which include a mix of multi-family and single-family. Lastly, the proposal aligns with the goals of the Strategic Housing Implementation Plan (SHIP), which encourages the development of additional housing stock to accommodate the City’s growing population.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not conflict with any public policy. Relevant Goals and Policies of the SA Tomorrow Comprehensive Plan may include:
  - H Goal 2: A variety of housing types (single-family detached, single-family attached, multifamily, as well as ownership and rental opportunities) is available at a variety of price and rent levels.
  - H Goal 5: High-density housing choices are available within the city’s 13 regional centers and along its arterial and transit corridors.
  - H Goal 6: Infill development and revitalized neighborhoods provide a range of housing choices near the city center.Relevant Goals and Objectives of the Medical Center Area Regional Center Plan may include:
  - Goal 4: Foster Innovation
    - Foster an innovative economic environment that leverages world class medical service care providers, education, and research to generate business creating and attract patients, employees, students, and investment from throughout the world.
6. **Size of Tract:** The 7.48 acres is of sufficient size to accommodate the proposed multi-family use.
7. **Other Factors:** The applicant is rezoning to convert the existing nursing facility/assisted living development into a multi-family development.
