

**DEPARTMENT OF THE AIR FORCE
502D AIR BASE WING
JOINT BASE SAN ANTONIO**

22 August 2024

MEMORANDUM FOR CITY OF SAN ANTONIO

FROM: 502 ABW/CMI

JBSA Installation Mission Sustainment

2080 Wilson Way

Fort Sam Houston, TX 78234

SUBJECT: Joint Base San Antonio review of Zoning Case Z-2024-10700179

1. Zoning Case Z-2024-10700179 has been reviewed by JBSA- LAK organizations. JBSA does not object with this request; however, there are additional comments for consideration in planning and development.
 - a. Subject property is within City of San Antonio Lackland Military Lighting Overlay District (MLOD) and will be required to comply with MLOD lighting standards at: https://library.municode.com/tx/san_antonio/codes/unified_development_code?nodeId=ARTIIIZO_DIV4OVDI_S35-339.04MILIOVDI, or most current City of San Antonio MLOD ordinance, related to development within 5-miles of a military installation.
 - b. Expect increased noise levels due to the proximity to final approach for aircraft operating in the local pattern at Kelly Field; area is within the flight path for arriving and departing helicopters landing on the Kelly Field/Port San Antonio Ramp.
 - c. Due to the proximity of the proposed project to the Transitional/Inner Horizontal Surface (Class A IFR Runway Airspace Imaginary Surfaces, UFC 3-260-01), careful consideration to site plotting and height restrictions (150' AGL) must be adhered to for compatibility with instrument procedures and local flying operations. This includes use of equipment for construction.
 - d. Any proposed exterior construction plans, construction or alteration projects which include vertical elements (equipment: cranes, towers: communication or water) may require FAA review to verify no hazard to flight navigation prior to issuance of any construction permits.

FAA CFR Title 14 Part 77 Notice Criteria Tool that can be utilized to aid in FAA notification requirements can be found here:

<https://oeaaa.faa.gov/oeaaa/external/gisTools/gisAction.jsp?action=showNoNoticeRequiredTo olForm>

Further FAA guidance is also available here:

https://www.faa.gov/documentLibrary/media/Form/FAA_Form_7460-1_042023.pdf

- e. To mitigate potential interference with existing JBSA operational systems, please coordinate with 502 CS Spectrum Manager prior to use of any Spectrum dependent systems (i.e.: two-way radio communications, or any type of wireless technologies) during construction. If applicable, coordination requested by facility user prior to installation/use of any Spectrum dependent commercial or manufacturing equipment.
 - f. The FAA recommends criteria of land-use practices in their Advisory Circular 150/5200-33C, Hazardous Wildlife Attractants on or Near Airports, which is applicable to properties within five miles of JBSA-Kelly Field. To reduce the exposure to aircraft-wildlife strikes, please use the link below to access this publication and use the information to help reduce wildlife-attractant features near airports. Unwavering consideration for this aviation safety hazard is vital.
