Comprehensive Land Use Categories:

Land Use Category: “Agricultural”

Description of Land Use Category: Agricultural uses provide primarily for the preservation of crop agriculture, ranching and related agri-business practices. Where residential uses are permitted, conservation subdivision design is encouraged to conserve open space and provide for continuation of agricultural uses. Limited commercial uses directly serving agricultural uses, such as farmers markets, feed stores, nurseries and bed and breakfasts are permitted. Certain non-agricultural uses, such as schools, places of worship and parks, are also appropriate for this category.

Permitted Zoning Districts: FR, RP

Comprehensive Land Use Categories:

Land Use Category: “Light Industrial”

Description of Land Use Category: Light Industrial includes a mix of manufacturing uses, Light Industrial business park and limited retail/service uses that serve the industrial uses. Industrial uses should be screened and buffered from adjoining non-industrial uses. Any outside storage should be under a roof and screened from public view. Examples of industrial uses include drug laboratories, furniture wholesalers, lumber yards, tamale factories and warehousing.

Permitted Zoning Districts: BP, L, MI-1 and I-1

The proposed Plan Amendment from “Agricultural” to “Light Industrial” is requested to rezone the property to “I-1” General Industrial District. The proposed “Light Industrial” land use aligns with existing industrial properties in the area, abutting industrial land uses to the east and south. While there is an existing land use of “Low Density Residential” to the west of the property, it is adequately buffered by the “Community Commercial” and “Agriculture” land uses between the two properties.
