RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval, pending Plan Amendment.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the North Sector Plan adopted August 5, 2010, and is currently designated as “Specialized Center” in the future land use component of the plan. The requested “C-3” base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to “Regional Center”. Staff and Planning Commission recommend Approval.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. Surrounding properties are “C-3” General Commercial District and “I-1” General Industrial District.
3. **Suitability as Presently Zoned:** The existing "I-1" General Industrial District is an appropriate zoning for the property and surrounding area. The proposed "C-3" General Commercial District is also appropriate. The subject property is surrounded by industrial and commercial properties and fronts Loop 1604, an interstate that can accommodate commercial traffic. The proposed zoning would also be a downzone from the current industrial designation.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not appear to conflict with public policy. Relevant Goals and Policies of the North Sector Plan may include:
 - Goal ED-1: Compatible economic development along major transportation routes and existing activity centers that do not interfere with the mission of Camp Bullis.
 - o ED-1.4: Continue to maintain and revitalize the North Sector to retain and expand vibrant retail and commercial uses within the IH-10, IH-35, Loop 410 and Loop 1604 corridors and/or centers.
 - Goal LU-1: Compatible land use pattern promoted so that natural resources are preserved and the local economy remains viable.
 - o LU-1.1: Locate buffers between high density/intensity land uses that are potentially incompatible.
 - Goal LU-3: Higher density/intensity tiers are recommended adjacent or proximate to activity centers.

- LU-3.3: Promote job growth in the Specialized, Regional, and Mixed Use Centers to achieve the City's diversified business targets through land use guidance and economic incentives.
6. **Size of Tract:** The subject property is 12.622 acres, which can reasonably accommodate the proposed commercial development.
 7. **Other Factors:** The applicant is requesting to downzone the property for the purpose of a car dealership.
