RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial.

Planning Commission recommended Approval of the Plan Amendment to "Rural Estate Tier."

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

- 1. Consistency:** The subject property is located within the Heritage South Sector Plan, adopted September 2010, and is currently designated as "Country Tier" in the future land use component of the plan. The requested "R-20" base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to "Rural Estate Tier". Staff recommends Denial. Planning Commission recommends Approval.
- 2. Adverse Impacts on Neighboring Lands:** Staff does find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is not consistent with the established development pattern of the surrounding area. Surrounding properties are "RP" Resource Protection District.

- 3. Suitability as Presently Zoned:** The existing “RP” Resource Protection District is an appropriate zoning for the property and surrounding area. The proposed “R-20” Residential Single-Family District is not. The existing “RP” Resource Protection zoning protects and preserves valuable agricultural areas, implements agricultural and natural resource protection, and requires a minimum of 10 acres. Abutting properties are designated as “RP” Resource Protection District, which implement larger minimum lot sizes. Minimum lot sizes being 10 acres and 25 acres, respectively. The proposed base zoning district would permit a density out of character with the surrounding area.
- 4. Health, Safety and Welfare:** Staff has found indication of likely adverse effects on the public health, safety, or welfare.
- 5. Public Policy:** The request does appear to conflict with any public policy objectives of the Heritage South Sector Plan:

 - Goal LU-1: Land uses that are compatible with neighboring properties that preserve natural and cultural resources, neighborhood character, and economic viability.
 - Goal LU-5: A community that applies sustainable development patterns and principles.
 - o LU-5.3: 3 Preserve as much as 25% of the developable land to maintain the area’s rural character and retain agricultural practices.
- 6. Size of Tract:** The 4-acre site is of sufficient size to accommodate the proposed residential development.
- 7. Other Factors:** The purpose of the zoning change request is to allow for the property owner to subdivide the property to build four dwelling units.
