The "MLOD-2" Lackland Military Lighting Overlay District does not restrict permitted uses, but does regulate outdoor lighting in an effort to minimize night-time light pollution and its effects on operations at the military installation.

The "WQ" Water Quality Protection Area Overlay District is designed to ensure adequate treatment of storm water runoff that may potentially produce toxic, corrosive, polluted, poisonous, radioactive, unpalatable, or otherwise dangerous substances injurious to the public health or which could otherwise adversely affect the water quality or supply, and thereby minimizing the risk of potential occurrences wherein such substances could enter the water of the West Side Creeks.

Current Zoning: "I-1" General Industrial District accommodates areas of heavy and concentrated fabrication and manufacturing and industrial uses which are suitable based on the character of adjacent development. Examples of permitted uses: auto & light truck auction, truck stop, abrasives manufacturing, food & drug manufacturing, sand & gravel storage & sales, outdoor flea market, manufactured homes/oversized vehicles sales, service, and storage.

Proposed Zoning: "IDZ-2" Medium Intensity Infill Development Zone allows rezoning requests up to 50 units per acre and uses permitted in "C-2" and "O-1.5". All approved uses must be requested and stated within the ordinance. Provide flexible standards for setbacks and parking for the development and reuse of underutilized parcels within a qualifying area of the city.

The "IDZ-2" is for uses permitted in "C-2" Commercial District, Tattoo Parlor, Warehousing, Winery with Bottling, Coffee Roasting, and Food Products – Wholesale and Storage.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on approval criteria below.

- 1. Consistency:** The subject property is located within the Guadalupe Westside Community Plan, adopted in 2007, and is currently designated as "Community Commercial" in the future land use component of the plan. The requested "IDZ-2" base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to "High Density Mixed Use". Staff recommends Approval. Planning Commission recommendation pending the April 9, 2025, hearing.
- 2. Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. Surrounding

properties are “I-1” General Industrial District and “C-2” Commercial District. Surrounding properties are “I-1” General Industrial District and “C-2” Commercial District.

- 3. Suitability as Presently Zoned:** The existing “I-1” General Industrial District is not an appropriate zoning for the property and surrounding area. The proposed “IDZ-2” Medium Intensity Infill Development Zone with uses permitted in “C-2” Commercial District, Tattoo Parlor, Warehousing, Winery with Bottling, Coffee Roasting, and Food Products – Wholesale and Storage is appropriate. The request to rezone is to permit an array of uses to accommodate current and potential tenants within the existing structure on the property. Given that the surrounding area is comprised of a mix of commercial and residential land use designations, staff finds that the request is consistent with what is in the area. Additionally, the applicant will have to adhere to the prescribed site plan. Any deviation from the document could be subject to further City Council review.
