Project Background:

San Antonio has been the center of Military Aviation for over a hundred years, and the home of Air Force Basic Training for more than fifty. It has also become a world leader in civilian aerospace and cyber and location of companies that will change the way we travel and the definition of “home” for all of us in the coming decades. This project will create the detailed plan to build two facilities that honor those who have taken us from wooden airplanes to space, and inspire and educate those young people who will write the next chapters of the story.

One facility will be next to the Parade Field at Lackland Air Force Base and serve as a visitor center for more than 250,000 proud family members who come from around the nation each year to see their sons and daughters graduate from Air and Space Force Basic Training. It will be the home of the Airman Heritage Museum, telling the story of how San Antonio became “Military City USA”, what happens here that makes us the world’s leading air power, and what lies ahead for us all. It will also collaborate with the Air Force on presentation of one of the nation’s great aircraft collections around the Parade Field.

The other will be an Aerospace Learning Center, located on the runway at Port San Antonio, near the new Boeing Center, planned Vertiport, and numerous active aerospace and cyber companies. It will focus on the future of flight as it continues to shrink our world and expand humanity’s reach off the planet. It will also partner with many educational organizations to provide the programs that inspire and prepare youth from the entire region – especially its neighbors in South and West San Antonio - to be part of that future.

Like two wings of an aircraft, the two facilities – linked by a shuttle - will span the runway and lead San Antonio on the Journey of Flight to an appreciation of the past and a brighter future for all. The project will: “Honor, Educate, Inspire”

Project Description:

The idea of a major San Antonio Based Aviation Experience has a long history, with several groups making significant progress over the years. In 2022, following the Covid Pandemic, those groups came together to form the Heritage and Learning Center Foundation, now known as Journey of Flight. This organization built strong support in the military, aviation, and education communities that has resulted in a strong Board of Directors and Advisory Board that reflects the diversity and commitment of our community, and has developed a strong vision for the future.

The Planning Phase of this project will test its assumptions, create its detailed master plan, and secure the funding necessary to proceed. Internationally known design firm, PGAV Destinations, was chosen from many candidates that were evaluated, and is conducting these efforts.

Project Budget:

The City of San Antonio Funds will be utilized as part of the Planning Phase which is estimated at a \$2 million budget to complete the master planning efforts. City funds will be used towards detailed facility and operational planning and other areas as detailed in Exhibit C

Project Timeline:

The project has been underway for two years. Sites have been secured at no cost, through an Educational Partnership Agreement with the Air Force and a Memorandum of Understanding with Port San Antonio.

The next phase will begin detailed design, architecture, educational partnerships and fundraising at the national level. It is anticipated that this phase will be complete by year end, that ground breaking can be held within two years.

A. SBEDA Program

City has adopted a Small Business Economic Development Advocacy Ordinance (Ordinance No. 2016-05-19-0367 and as amended, also referred to as “SBEDA” or “the SBEDA Program”), which is posted on City’s Economic Development (hereafter referred to as “EDD”) website page and also is available in hard copy form upon request to City. The SBEDA Ordinance Compliance Provisions contained in this Exhibit 1 are governed by the terms of said Ordinance, as well as by the terms of the SBEDA Ordinance Policy & Procedure Manual established by City, pursuant to said Ordinance, and any subsequent amendments to this referenced SBEDA Ordinance and SBEDA Policy & Procedure Manual in effect as of the date of the execution of this Agreement. Unless defined in a contrary manner herein, terms used in this Exhibit 1 shall be subject to the same expanded definitions and meanings as given those terms in the SBEDA Ordinance and as further interpreted in the SBEDA Policy & Procedure Manual.

M/WBE Subcontracting Program. In accordance with SBEDA Ordinance Section III. D. 2. (d), this contract is being awarded pursuant to the M/WBE Subcontracting Program. GRANTEE agrees to subcontract at least **fourteen (14%)** of the City's appropriation of this project to certified M/WBE firms headquartered or having a Significant Business Presence within the San Antonio Metropolitan Statistical Area (SAMSA).

The Subcontractor / Supplier Utilization Plan that GRANTEE submitted to CITY for this contract (or, as appropriate, that it agrees to submit during the price proposal negotiation phase of this contract), and that contains the names of the certified M/WBE Subcontractors to be used by GRANTEE on this contract, the respective percentages of the total prime contract dollar value to be awarded and performed by each M/WBE Subcontractor, and documentation including a description of each M/WBE Subcontractor’s scope of work and confirmation of each M/WBE Subcontractor’s commitment to perform such scope of work for an agreed upon dollar amount is hereby attached and incorporated by reference into the material terms of this Agreement. In the absence of a waiver granted by the SBO, the failure of GRANTEE to attain this subcontracting goal for M/WBE firm participation in the performance of a Commercially Useful Function under the terms of its contract shall be a

material breach and grounds for termination of the contract with the CITY, and may result in debarment from performing future CITY contracts, withholding of payment for retainage equal to the dollar amount of the underutilization below the agreed upon M/WBE subcontracting goal, and/or shall be subject to any other remedies available under the terms of this Agreement for violations of the SBEDA Ordinance, or under any other law.

C. Contract Requirements and Commitment

GRANTEE understands and agrees the following provisions shall be requirements of this Funding Agreement and GRANTEE, in acknowledging these requirements, commits to comply with these provisions.

Waiver Request - GRANTEE may request, for good cause, a full or partial Waiver of **specified subcontracting goal(s)** by submitting the *Respondent/ Vendor Subcontracting Waiver Request* form (available at <http://www.sanantonio.gov/SBO/Forms.aspx>). GRANTEE's agreement fully to comply with these SBEDA program terms is a material condition for being awarded this Funding Agreement by City. Without limitation, GRANTEE further agrees to the following terms as part of its contract compliance responsibilities under City's SBEDA Program:

All proposed changes to the Subcontractor / Supplier Utilization Plan including, but not limited to, proposed self-performance of work by GRANTEE of work previously designated for performance by Subcontractor or supplier, substitutions of new Subcontractors, terminations of previously designated Subcontractors, or reductions in the scope of work and value of work awarded to Subcontractors or suppliers, shall be subject to advanced written approval by the Originating Department and the SBO.

H. Definitions

Affirmative Procurement Initiatives (hereafter referred to as "API") – refers to various Small Business Enterprise, Minority Business Enterprise, and/or Women Business Enterprise (hereafter referred to as "S/M/WBE") Program tools and Solicitation Incentives

that are used to encourage greater prime contract and subcontract participation by S/M/WBE firms, including bonding assistance, evaluation preferences, subcontracting goals and joint venture incentives. (For full descriptions of these and other S/M/WBE program tools, see Section III. D. of Attachment A to the SBEDA Ordinance).

Centralized Vendor Registration System (hereafter referred to as “CVR”) – refers to a mandatory electronic system wherein City requires all prospective Consultants, Sub-Consultants, Contractors and Subcontractors ready, willing and able to sell goods or services to City to register. The CVR system assigns a unique identifier to each registrant that is then required for the purpose of submitting solicitation responses and invoices and for receiving payments from City. The CVR-assigned identifiers also are used by City’s Goal Setting Committee for measuring relative availability and tracking utilization of SBE and M/WBE (as defined herein) firms by Industry or commodity codes and for establishing annual aspirational Goals and contract-by-contract Subcontracting Goals.

Certification or “Certified” – refers to the process by which City’s Small Business Office (hereafter referred to as “SBO”) staff determines a firm to be a bona-fide small, minority-, women-owned or emerging small business enterprise. Emerging Small Business Enterprises (hereafter referred to as “ESBEs”) automatically are eligible for Certification as SBEs. Any firm may apply for multiple Certifications covering each and every status category (e.g., SBE, ESBE, MBE, or WBE) for which it is able to satisfy eligibility standards. The SBO staff may contract these services to a regional Certification agency or other entity. For purposes of Certification, City accepts any firm that is certified by local government entities and/or other organizations identified herein that have adopted Certification standards and procedures similar to those followed by the SBO, provided the prospective firm satisfies the eligibility requirements set forth in this Ordinance in Section III.E.6 of Attachment A.

Commercially Useful Function – means a S/M/WBE firm performs a Commercially Useful Function when it is responsible for execution of a distinct element of the work of the contract and is carrying out its responsibilities by actually performing, staffing, managing and supervising the work involved. To perform a Commercially Useful Function, the S/M/WBE firm also must be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quantity and quality, ordering the material and installing (where applicable) and paying for the material itself. To determine whether an S/M/WBE firm is performing a Commercially Useful Function, an evaluation must be performed of the amount of work subcontracted, normal industry practices, whether the amount the S/M/WBE firm is to be paid under the contract is commensurate with the work it actually is performing, the S/M/WBE credit claimed for its performance of the work and other relevant factors. Specifically, an S/M/WBE firm does not perform a Commercially Useful Function if its role is limited to that of an extra participant in a transaction, contract or project through which funds are passed in order to obtain the appearance of meaningful and useful S/M/WBE participation when, in similar transactions in which S/M/WBE firms do not participate, there is no such role performed. The use of S/M/WBE firms by GRANTEE to perform such “pass-through” or “conduit” functions that are not commercially useful shall be viewed by City as fraudulent, if

GRANTEE attempts to obtain credit for such S/M/WBE participation towards the satisfaction of S/M/WBE participation goals or other API participation requirements. As such, under such circumstances where a commercially useful function is not actually performed by the S/M/WBE firm, GRANTEE shall not be given credit for the participation of its S/M/WBE Consultant(s), Sub-Consultant(s), Contractor(s), Subcontractor(s), Suppliers or joint venture partner towards attainment of S/M/WBE utilization goals, and GRANTEE and S/M/WBE firm may be subject to sanctions and penalties in accordance with the SBEDA Ordinance.
