**Criteria for Review – Fence Height Special Exception**

According to Section 35-482(h) of the UDC, in order for a variance to be granted, the applicant must demonstrate all of the following:

*A. The special exception will be in harmony with the spirit and purpose of the chapter.*

The UDC states the Board of Adjustment can grant a special exception for a fence height modification. If granted the special exception is not contrary to the spirit and purpose of the chapter as 1-foot is the minimum height needed to afford the property owner relief.

*B. The public welfare and convenience will be substantially served.*

In this case, these criteria are represented by fence heights to protect property owners while still promoting a sense of community. The proposed fence will add to the protection of the property and add to the sense of security in the area.

*C. The neighboring property will not be substantially injured by such proposed use.*

The proposed predominantly open fence would be along South Zarzamora Street and would not injure neighboring properties as the fence does not obstruct the line of sight for oncoming vehicles.

*D. The special exception will not alter the essential character of the district and location in which the property for which the special exception is sought.*

Upon inspection of the district and location, the fence at its proposed design will not alter the essential characteristics of the district.

*E. The special exception will not weaken the general purpose of the district or the regulations herein established for the specific district*

If granted, the special exception will not alter the general purpose of the district, or the regulations herein established for the specific district. The proposed fence exceeds the height regulations by 1-foot and will enhance the security of the property.

#### **Alternative to Applicant's Request**

The alternative to the applicant's request is to conform to the Fence Height Regulations of Section 35-514 of the Unified Development Code.

#### **Staff Recommendation – Fence Height Special Exception**

Staff recommends Approval in BOA-24-10300055 based on the following findings of fact:

1. The proposed height will add security to the property and surrounding area; and,
2. The special exception will not alter the essential character of the neighborhood.
