EXHIBIT A PROJECT SCOPE

Project Description:

This purpose of this project was to prepare a corridor traffic study for Hamilton Wolfe, Fredericksburg Road, and Floyd Curl to determine operation, safety, and mobility improvements for these corridors. These corridors were identified as for potential improvements in an upcoming bond project. The limits of the project study area were as follows:

The corridor traffic study focused on intersection operations under existing and proposed conditions with known major developments in the study area. The results and recommendations of the analysis will be summarized in a traffic study report and a concept schematic along with cost estimates will be developed for the recommendations on each roadway.

Project Budget:

City will utilize funds in the amount not to exceed \$80,000 from the Floyd Curl Drive (Huebner to Charlz Katz) LF Project, a 2022 Bond Program Proposition A Streets, Bridges and Sidewalks funded project and the \$77,876.02 contribution from San Antonio Medical Foundation.
