RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Planning Commission recommend Approval.

The proposed land use amendment from “Country Tier” to “Suburban Tier” is requested to rezone the property to “C-2” Commercial District, to accommodate an office for MK Marlow Construction. While the “Country Tier” land use designation is appropriate for the property and surrounding area, the “Suburban Tier” land use is also compatible. The property is situated on the intersection of a local road and a Secondary Arterial Type A, which meets the locational criteria stipulated in the North Sector Plan. The “Country Tier” has a size criterion of 10 or more acres. Some of the surrounding properties meet this acreage, but the subject property does not. Additionally, the surrounding commercial uses are low intense and small scale. Properties in the area could be described as a rural area with a low intensity development pattern but surrounding land uses do not include any small-scale farm or ranch uses. The “Suburban Tier” land use designation will accommodate the proposed use and will provide a framework for suitable commercial and mixed residential development in the future.
