3. Public Art: Fire Station 24 – Final Design (Action)

Patrias presented a model of Fire Station 24 final design by Wanderlust Ironworks, lead artist Autumn Saleh. Mural will consist of an artwork attached to the Fire Station 24 wall with partial 3-dimensional elements rather than a traditional flat painted mural. Patrias indicated the final design honors all types of personnel that work in fire service through various representations, utilizes shapes and forms representing real life objects used at Fire Station 24. The mural also memorializes former station dog and includes EMS symbols utilizing warm firefighting colors. Patrias noted the Public Art Committee approved the final design and indicated timeline for this project.

Public Comments: None

Commission Discussion: Arastu inquired if the duplication of stethoscope and scissors on the mural were required. Patrias indicated EMS appreciated the duplicated depictions as they are quite often under shadowed.

Clark inquired if Firefighters approved the design. Patrias confirmed and indicated Fire Chief approved as well.

Clark remarked the image of the existing dog on the mural model would not be as representative to fire work as an image of a Dalmatian dog. Jones states the mural is a permanent mural and visitors to Fire Station 24 would have the opportunity to learn more about the importance of the dog at this location and the station.

Barilleaux states the work of art would be relevant to the community in that region.

5. Urban Entertainment District (Briefing)

Jones provided the Commissioners a briefing about community engagement meetings held by the City of San Antonio regarding a proposal for San Antonio to create one or more urban and entertainment districts using outdoor media platforms. Jones defined an urban and entertainment district as an identified area allowing installation of enhanced digital displays on buildings and structures for arts and advertisements. Jones defined the community benefits and challenges and stated Development Services Department (DSD) will create a pilot program utilizing collected community feedback. Commissioners were invited to attend Arts Community Feedbacks Session scheduled for April 29: 2 pm – 4 pm and 6 pm – 8 pm at DSD located at 1901 S Alamo, Second Floor Training Rooms.

Public Comments: None

Commission Discussion: Brun inquired of efforts in reaching outside of arts organization, not to chastise any component of the community. Jones stated an invitation has been extended to organizations funded by the Department, but also local venues and stakeholders not funded by the department.

Brun inquired if LED specifications have been discussed. Jones stated multiple entities including conservation and dark skies initiative organizations have been involved in the discussion. Jones identified the pilot program would enable discussions on setting content restrictions as well. City would dictate content advertised, the amount of time arts organizations and city messaging should have on the display.

Brun also inquired if City has estimated the percentage of annual revenue shares to be allocated to the Arts. Jones stated the media company has proposed 100 percent of the revenue allocated to Arts. The Department in coordination with the San Antonio Arts Commission will develop the use of revenues prioritizing the allocation of funding to artists and non-profit arts organizations.
