LOCATION: 1707 West Mally Boulevard

LEGAL DESCRIPTION: Lot 24, Block 1, NCB 11071 and Lot 1, Block 102, NCB 11071

ZONING: "R-4 MLOD-2 MLR-2 AHOD" Residential Single-Family Lackland Airforce Base Military Lighting Overlay Military Lighting Region 2 Airport Hazard Overlay District

CASE MANAGER: Colton Unden, Planner

A request for

A 2'-6" variance from the minimum 5' side setback to allow a 2'-6" side setback for an accessory structure on the west property line.

Section 35-370(b)(1)

Executive Summary

The subject property is located along West Mally Boulevard, west of South Zarzamora Street not located within any Neighborhood Association. The applicant is requesting a variance for a recently constructed accessory structures in the rear, on the west property line. Because the applicant has a qualifying pool, they are allowed up to 8 feet in length on their side and rear fence. Aside from the accessory structures, the rear yard contains several trees and an underground pool. The underground pool is not considered an accessory structure and would be impact the maximum 50% rear/side yard coverage. Property owner currently have a preliminary Plat to combine both lots

into one. On October 21, 2024, the Board of Adjustment denied a variance for a 2'-2" side setback on the east property line and a variance from prohibited fencing materials. The variance requested was specifically continued by the Board of Adjustment.

Code Enforcement History

INV-PBP-24-3100004724 - PMT-Building Without a Permit – Pending Resolution

INV-ZRD-24-3170002383 – Zoning (Fence Material) – Pending Resolution

Permit History

MEP-ELE-PMT24-33325289 – Electrical General Permit

RES-SWM-PMT24-32601266 – Swimming Pool Permit

Comprehensive Plan Consistency/Neighborhood Association

The subject property is located within the West/Southwest Sector Plan and is designated as “General Urban Tier” in the future land use component of the plan. The subject property is not located within the notification boundaries of any Neighborhood Association.

Street Classification

West Mally Boulevard is classified as a Local Road.

Criteria for Review – Side Setback on the West Property Line

According to Section 35-482(e) of the UDC, in order for a variance to be granted, the applicant must demonstrate all of the following:

1. The variance is not contrary to the public interest.

The public interest is defined as the general health, safety, and welfare of the public. In this case, the public interest is represented reduced side setback. The requested variance is contrary to the public interest as the reduced side setback standard creates water runoff and potentially reduce fire mitigations.

2. Due to special conditions, a literal enforcement of the ordinance would result in unnecessary hardship.

A literal enforcement of the side setbacks ordinance would not result in unnecessary hardship as sufficient space exists in the rear yard to meet the side setback standard.

3. By granting the variance, the spirit of the ordinance will be observed, and substantial justice will be done.

The requested accessory structure side setback variance does not appear to be in the spirit of the ordinance as the side setback standards were created and reduced for accessory structures to provide sufficient space between structure and property line.

4. The variance will not authorize the operation of a use other than those uses specifically authorized in the zoning district in which the variance is located.

No uses other than those allowed within the district will be allowed with this variance.

5. Such variance will not substantially injure the appropriate use of adjacent conforming property or alter the essential character of the district in which the property is located.

Staff finds the side setback variance will substantially injure the appropriate use of adjacent properties as the reduced side setbacks for the accessory structures will alter the essential character of the district by creating a reduced standard.

6. The plight of the owner of the property for which the variance is sought is due to unique circumstances existing on the property, and the unique circumstances were not created by the owner of the property and are not merely financial and are not due to or the result of general conditions in the district in which the property is located.

Staff finds no unique circumstance existing on the property warranting the need to have a reduced side setback for an accessory structure. The rear yard provides ample space to meet the minimum side setback requirement.

Alternative to Applicant's Request

The alternative to the applicant's request is to conform to the accessory structure setback of the UDC Section 35-370(b)(1).

Staff Recommendation – Side Setback on the West Property Line

Staff recommends Denial in BOA-24-10300194 based on the following findings of fact:

1. The rear yard provides ample space to meet the minimum side setback requirement.
2. The variance will alter the essential character of the district.
