REQUEST:

The applicant is requesting a Certificate of Appropriateness to add one (1) set of faux shutters on the north elevation facing E Johnson Street.

APPLICABLE CITATIONS:

Historic Design Guidelines, Chapter 2, Exterior Maintenance and Alterations

(6) Architectural Features: Doors, Windows, and Screens

B. Alterations (Rehabilitation, Restoration, and Reconstruction)

x. *Shutters*—Incorporate shutters only where they existed historically and where appropriate to the architectural style of the house. Shutters should match the height and width of the opening and be mounted to be operational or appear to be operational. Do not mount shutters directly onto any historic wall material.

FINDINGS:

- a. The structure located at 502 Madison Street is a Colonial Revival home built in 1920 and contains two living units. It features an asymmetrical front gabled double height porch, and a hipped metal standing seam roof. The property is located within the King William Historic District in addition to being an individual historic landmark. This request was postponed to the HDR-CTAB hearing on October 18, 2024, by the applicant.
- b. The scope of work includes adding one set of faux shutters on the North elevation facing East Johnson street. This element is inconsistent with the Guidelines for Exterior Maintenance and Alterations 6.B.x which states that shutters should only be incorporated where they existed historically and where appropriate to the architectural style of the house.
- c. Staff finds that this request is inconsistent with the Guidelines for Exterior Maintenance and Alterations and is not appropriate.

RECOMMENDATION:

Staff does not recommend approval based on findings a through c.
