Property Details

Property History: The subject properties were part of the original 36 square miles of the City of San Antonio and most of the area was originally zoned “C” Apartment District, “L” First Manufacturing District and “B” Residential District properties interspersed throughout the project area. Under the 2001 Unified Development Code, established by Ordinance 93881, dated May 03, 2001, the properties zoned “C” Apartment District converted to “MF-33” Multi-Family District, properties zoned “L” First Manufacturing District converted to “I-2” Heavy Industrial District, and properties zoned “B” Residential District also converted to “MF-33” Multi-Family District.

Topography: The property does not include any abnormal physical features such as slope or incursion in a floodplain

Overlay District Information:

The "AHOD" Airport Hazard Overlay District, due to the location of the property and its proximity to an airport or approach path, does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

The "MLOD-3" Military Lighting Overlay District is an overlay zoning district that establishes regulations for outdoor lighting impacting military operations within five (5) miles of the perimeter of Camp Bullis/Camp Stanley, Randolph Air Force Base, Lackland Air Force Base, and Martindale Army Air Field. Projects within the overlay boundary may require additional review.

The "EP-1" Overlay district is intended to regulate parking of vehicles in and around large facilities that attract large amounts of vehicular traffic.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

- 1. Consistency:** The subject property is not located within any existing neighborhood plan, and as such, recommendations are based solely on the appropriateness of zoning designations for each property.
- 2. Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.
- 3. Suitability as Presently Zoned:** Current zoning of the properties in the subject area is a mixture of residential, industrial, and commercial uses. The vast majority of properties in the subject area are zoned “MF-33” Multi-Family District and “I-2” Heavy Industrial District (875 properties out of 2,080 total), despite the fact that almost all of these properties are in fact single-family. No plan amendments required as the area is not part of any neighborhood plan. The 2001 adoption of the Unified Development Code converted all 1938 and 1965 zoning districts to the current zoning districts, in turn, this conversion created some non-conforming uses. The rezoning strategy includes, field and data analysis conducted by staff to make appropriate zoning recommendations based on the current use of properties. Various residentially zoned properties are conditionally zoned for two (2) or more dwelling units as part of the rezoning process to avoid non-conforming uses. Properties were removed from the strategy if already appropriately zoned with their current use.

4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** As there is no current neighborhood plan pertaining to the Harvard Place Eastlawn neighborhood, there is no need to coordinate with any specific existing community plans. However, the proposed large area rezoning does not conflict with the following goals and strategies of the SA Tomorrow Comprehensive Plan, the long-range planning document that provides policy guidance for future growth, development, land use, infrastructure, and services.

Growth and City Form Goals:

- **GCF Goal 2:** Priority growth areas attract jobs and residents.
- **GCF Goal 5:** Growth and city form support improved livability in existing and future neighborhoods.

Housing Goals and Policies

- **Housing Goal 3:** Housing choices are available in walkable and bikeable neighborhoods located near transit, employment, retail, medical and recreational amenities.
- **Housing Goal 4:** Improved infrastructure, services and amenities increase market demand and attract residents to priority growth areas.

6. **Size of Tract:** Approximately 427 acres
7. **Other Factors:** City Council approved a resolution on July 6, 2023 (2023-08-17-0030R), directing the Development Services Department to initiate a large area rezoning to appropriate zoning districts for property located in the Harvard Place Eastlawn Neighborhood. The goal is to align zoning with the current use of properties in the area. Throughout the past few decades many areas of the center city have had ongoing concerns regarding zoning inconsistencies. These inconsistencies were the result of the code conversion from the “old” zoning code, which utilized an A-J tiered system of zoning, to the new system we use today. The Large Area Rezoning project is meant to correct these nonconforming issues. Staff is recommending a change of zoning on 1,167 properties.

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.
