RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

- 1. Consistency:** The subject property is located within the West/Southwest Sector Plan, adopted in 2011, and is currently designated as "General Urban Tier" in the future land use component of the plan. The requested "RM-5" base zoning district is consistent with the future land use designation.
- 2. Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area. Surrounding properties are zoned "RM-5" Residential Mixed Use, "R-6" CD Residential Single-Family District with a Conditional Uses for 10 units and 2 units, and "R-6" Residential Single-Family District.
- 3. Suitability as Presently Zoned:** The existing "R-6" Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed "RM-5" Residential Mixed Use is also appropriate. The surrounding area is comprised of other similar densities and zones making the proposal consistent with what is present in the area. Additionally, the proposed zoning is also consistent with the goals of the Strategic Housing Implementation Plan which encourages the development of alternate housing types to accommodate the city's growing population at all income levels.
- 4. Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
- 5. Public Policy:** The request does not appear to conflict with any public policy objectives. Relevant Goals and Policies of the West/Southwest Sector Plan may include:
 - Goal HOU-1: Housing stock is diverse and densities are distributed in accordance with the adopted West/Southwest Sector Land Use Plan.
 - HOU-1.2: Provide a range of housing types and prices to accommodate all residents within the Sector and within the same neighborhood.
 - Goal HOU-2: New housing developments locate near existing community facilities, schools, and physical infrastructure (e.g., streets, water, sewer, etc.) with sufficient capacity to serve new developments.
 - Goal LU-1: Land use pattern emphasizes compatibility and appropriateness between uses, and protects neighborhoods and businesses from incompatible land uses.
- 6. Size of Tract:** The 1.0014-acre site is of sufficient size to accommodate the proposed residential development.
- 7. Other Factors:** The subject property is located within the Lackland AFB Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding,

JB SA was notified of the proposed request. The Military has indicated that there are no objections to this request.

For properties zoned “RM” or “MF” that abut lots zoned residential or are developed with a single-family use, the height is restricted to the maximum height of the single family district within 50 feet of the property line.

The proposed rezoning maintains the residential base district but is seeking additional density for use as residential dwelling units. A rezoning application does not allow Short Term Rentals (STRs) as a use by right. Any applicant seeking to operate an STR must follow the appropriate City and Unified Development Code (UDC) processes and is required to apply and qualify for STR permit(s) through those processes. Short Term Rentals are governed by the UDC Section 16.1100. Also see Section 35-374.01 for STR density limitations, Section 35-399 for establishment regulations, and Section 35-482 for procedures regarding consideration of special exceptions.
