

Accela Software as a Service (SaaS) Upgrade

Craig Hopkins
Chief Information Officer/ IT Director
November 2, 2023

Accela Background

- June 2015, City Council authorized a contract with Accela, Inc., to provide the City's Development Services Department with a comprehensive Land Development, Building, and Code Compliance Management system.
 - Allows for the convergence of business operations across multiple City departments into a single enterprise permitting platform.
- December 2015, City Council authorized a contract with Carahsoft to provide the City's Public Works Department with an integrated Right of Way Management solution on the Accela platform.
 - Provides seamless interaction with the City's enterprise permitting platforms and GIS solutions, increasing visibility and creating efficiencies.

Accela SaaS Upgrade Scope

- Migrate from the current Accela on-premise licensing model to a subscription-based SaaS model.
- Consolidate two permitting systems into one common platform.
- Consolidate functionality and maintain data standards through a cloud based, highly secure platform with data redundancy.
- Allow access to enhanced features including improved customer experience, improved mobile application experience for field staff, other features only available in Accela SaaS solution.
- Right of Way Management system to be completed in March 2024.
- Land Development, Building, and Code Compliance Management system migration will be completed in October 2024.
