Comprehensive Plan

Comprehensive Plan Component: Nogalitos/South Zarzamora Community Plan

Plan Adoption Date: September 2004

Plan Goals:

- Goal 2 Community Character and the Environment: Preserve and enhance the walkable, neighborhood-friendly character of the neighborhoods in a way that incorporates the arts and improves the environment.
- Objective 2.1 Neighborhood Character and Appearance
 - Protect and preserve the character of the neighborhoods and commercial corridors while improving their physical appearance.
- Objective 2.2 Code Compliance
 - Educate residents on the importance of keeping a clean and safe environment and complying with code regulations.

Comprehensive Land Use Categories:

Land Use Category: “Low-Density Residential”

Description of Land Use Category: Low-density residential uses include single-family houses on individual lots with/without attached or detached accessory dwelling units, such as granny flats, garage apartments, and “echo” (elder cottage housing opportunity) units. Only one accessory dwelling is permitted per lot and should reflect the appearance of the main structure. All off-street parking and vehicle use areas adjacent to residential uses require buffer landscaping, and lighting and signage controls. Certain non-residential activities such as schools, places of worship, and parks are appropriate within these areas and should be centrally located to provide easy access. This form of development should be oriented toward the center of the neighborhood and located away from major arterials.

Permitted Zoning Districts: “R-20”, “R-6”, “R-5”, “R-4”

Land Use Category: “Mixed Use”

Description of Land Use Category: Mixed-use allows for a concentrated, well structured, and integrated blend of residential, retail, service, office, entertainment, leisure, and other related uses at increased densities. This use pattern creates a pedestrian and transit oriented rather than an automobile-oriented environment.

Building and architectural design of a Mixed-use development should stress quality architecture and urban design features, including parks/plazas and landscaping in a safe, attractive, pedestrian and bicycle friendly environment. A majority of the ground floor façade should be composed of windows. Centralized parking areas should be located behind buildings. Mixed Use Centers should be linked to adjoining land uses with safe, attractive and convenient vehicular and pedestrian access. Mixed-use development is preferred along arterials in a nodal pattern around a transit stop, where density would decrease towards the edge of the node.

Permitted Zoning Districts: “NC”, “C-1”, “C-2 P”, “O-1”, “O-2”, “RM-4”, “RM-5”, “RM-6”, “MF-25”, “MF-33”, “MF-40”, “MXD”, “TOD”, “IDZ”

3. Continue to future date.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial, with an alternate recommendation of “R-4 CD” Residential Single-Family with a Conditional Use for four units.

The proposed land use amendment from “Low-Density Residential” to “Mixed Use-Residential/Office/and Commercial” is requested to rezone the property to “IDZ-2” Medium Intensity Infill Development Zone, to develop four (4) single-family dwelling units.

The current land use classification is “Low Density Residential”, which is compatible with the existing single-family uses in the immediate area. The proposed “Mixed Use-Residential/Office/and Commercial” is not consistent and would introduce higher density. Within the Nogalitos/South Zarzamora Community Plan, the “Mixed Use- Residential/Office/and Commercial” land use designation recommends that mixed-use developments would include a mix of uses within the development, with preferred locations being at intersection nodes along major arterial roadways. The proposal does not meet the usage and locational criteria and is not suited to accommodate this intense land use category. Staff finds higher density could be accomplished by keeping the existing “Low Density Residential” land use classification with Conditional Use zoning and prevent any potential commercial encroachment from the established residential development.
