**PROXIMITY TO CURRENT AND/OR PLANNED REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR AS IDENTIFIED IN THE SA TOMORROW COMPREHENSIVE PLAN:**

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and Zoning Commission recommend Approval.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the Port San Antonio Area Regional Center Plan, adopted in 2021, and is currently designated as “Urban Mixed Use” in the future land use component of the plan. The requested “MF-18” base zoning district is consistent with the future land use designation.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.
3. **Suitability as Presently Zoned:** The existing “C-3NA” General Commercial Non-Alcoholic Sales Districts is an appropriate zoning for the property and surrounding area. The proposed “MF-18” Limited Density Multi-Family District is also appropriate. The proposed multi-family development is for the purpose of an affordable senior independent living facility which would accommodate the growing need for affordable housing options for seniors. The proposal aligns with the goals of the Strategic Housing Implementation Plan (SHIP), which encourages the development of additional housing stock to accommodate the City’s growing population.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does appear to conflict with public policy. Relevant Goals and Policies of the Comprehensive Master Plan may include:
  - H Goal 1: Housing for lower-income residents is available throughout the community with the greatest proportion in priority growth areas with high levels of connectivity and amenities.
  - H Goal 2: A variety of housing types (single-family detached, single-family attached, multifamily, as well as ownership and rental opportunities) is available at a variety of price and rent levels.
  - H Goal 5: High-density housing choices are available within the city’s 13 regional centers and along its arterial and transit corridors.
  - H P6: Work with affordable housing partners and developers to provide affordable housing options for seniors.

Relevant Goals and Policies of the Port San Antonio Area Regional Center Plan may include:

- Goal 4: Increase housing options while preserving or increasing home ownership.

- Direct higher density housing options to targeted focus areas and along major corridors and encourage appropriate transitions of density and intensity to existing lower density neighborhoods.
6. **Size of Tract:** The subject property is 5.218 acres, which can reasonably accommodate the proposed residential development.
7. **Other Factors:** The property is proposed for development of multifamily uses that shall not exceed 18 units per acre. At 5.218 acres, there could potentially be development of 94 units. The applicant's request is to build 86 units.

The proposed rezoning is seeking additional density for use as residential dwelling units. A rezoning application does not allow Short Term Rentals (STRs) as a use by right. Any applicant seeking to operate an STR must follow the appropriate City and Unified Development Code (UDC) processes and is required to apply and qualify for STR permit(s) through those processes. Short Term Rentals are governed by the UDC Section 16.1100. Also see Section 35-374.01 for STR density limitations, Section 35-399 for establishment regulations, and Section 35-482 for procedures regarding consideration of special exceptions.
