<b>Tree Number</b>	2691
<b>Tree Species</b>	Pecan
<b>Diameter (DBH)</b>	14.5
<b>Multi Stem Notes</b>	
<b>Condition</b>	Very Poor
<b>Summary</b>	2691 a 14.5 inch pecan is in very poor overall condition and is a very poor candidate for preservation due to excessive cavity at the base of the tree. Excessive decay and rot likely impacting structural integrity. Fair overall response growth and wound reaction wood. Significant cavity and decay in major branches. Decay and rot likely at old pruning wounds. Potential canopy approximately 65%. Candidate recommended for removal.

<b>Tree Number</b>	2692
<b>Tree Species</b>	Arizona Ash
<b>Diameter (DBH)</b>	12
<b>Multi Stem Notes</b>	
<b>Condition</b>	Very Poor
<b>Summary</b>	2692 a 12 inch Arizona Ash is in very poor overall condition and is a very poor candidate for preservation. Tree has codominant stem failure. Excessive damage to the trunk with significant decay. Reaction growth is very poor and tree is likely in decline. Candidate recommended for removal.

<b>Tree Number</b>	2693
<b>Tree Species</b>	Arizona Ash
<b>Diameter (DBH)</b>	12.5
<b>Multi Stem Notes</b>	
<b>Condition</b>	Very Poor
<b>Summary</b>	2693 a 12.5 inch Arizona Ash is in very poor overall condition and is a very poor candidate for preservation. Tree has main leader failure. Significant decay remains in wound. Low fair response growth. Candidate recommended for removal.

Photos

<b>Tree Number</b>	2694
<b>Tree Species</b>	Arizona Ash
<b>Diameter (DBH)</b>	20
<b>Multi Stem Notes</b>	
<b>Condition</b>	Fair
<b>Summary</b>	2694 a 20 inch Arizona Ash is in fair overall condition and is a fair candidate for preservation. Tree is inaccessible, DBH was estimated. Most northern stem on canopy has branching weight resting on utility lines. Barbed wire wrapped around tree affecting vigor and growth, will likely cause tree to prematurely decline.

<b>Tree Number</b>	2697
<b>Tree Species</b>	Arizona Ash
<b>Diameter (DBH)</b>	14
<b>Multi Stem Notes</b>	
<b>Condition</b>	Fair
<b>Summary</b>	2697 a 14 inch multi stem Arizona Ash is in fair overall condition and is a fair candidate for preservation.

Photos

<b>Tree Number</b>	2698
<b>Tree Species</b>	Hackberry
<b>Diameter (DBH)</b>	15
<b>Multi Stem Notes</b>	
<b>Condition</b>	Fair
<b>Summary</b>	2698 a 15 inch Hackberry is in fair overall condition and is a fair candidate for preservation. Tree is inaccessible between buildings, DBH was estimated. Significant lean to the southeast over building.
