

City Council Session A
Agenda Item 8
Dec. 5, 2024

San Antonio Fire Department Emergency Generator Project

Background

The City of San Antonio received funding from the State and Local Fiscal Recovery Fund to be used for the Emergency Preparedness Program to purchase and installation of emergency generators at Fire Stations 7, 9, 17, 18, 19, 22, 29, 32, 34, 36, 38, 42, 46, 48, 50, 51, 54 and the SAFD Services Facility in support of the City of San Antonio's resiliency program .

The fire stations included in project have generators that are non-functional or provide backup power for limited systems in the stations. The Services Facility does not have an emergency generator. The new generators will provide backup power for all systems in each fire station and the Services Facility which will allow for complete functionality during any power outage. This will also allow the fire stations to function as resiliency hubs for assistance to the public during emergency weather related incidents and critical emergency responses.

Fire Station Locations

FS 7 – 1414 S. St. Mary's Street – D1

FS 9 – 649 Delmar Street – D2

FS 17 – 8545 Jones Maltsberger Road - D1

FS 18 – 1410 S. W.W. White Road – D2

FS 19 – 2307 Vance Jackson – D1

FS 22 – 1100 March Avenue – D3

FS 29 – 827 Hot Wells Boulevard – D3

FS 32 – 4839 Charles Katz Road – D8

FS 34 – 15300 Babcock Road – D8

FS 36 – 5826 Ray Ellison Drive – D4

FS 38 – 6000 Distribution Drive – D2

FS 42 – 10400 Horn Drive – D7

FS 46 – 1165 Evans Road – D9

FS 48 – 18100 Bulverde Road – D10

FS 50 – 12703 Applewhite Road - D3

FS 51 – 5020 Beckwith Road – D8

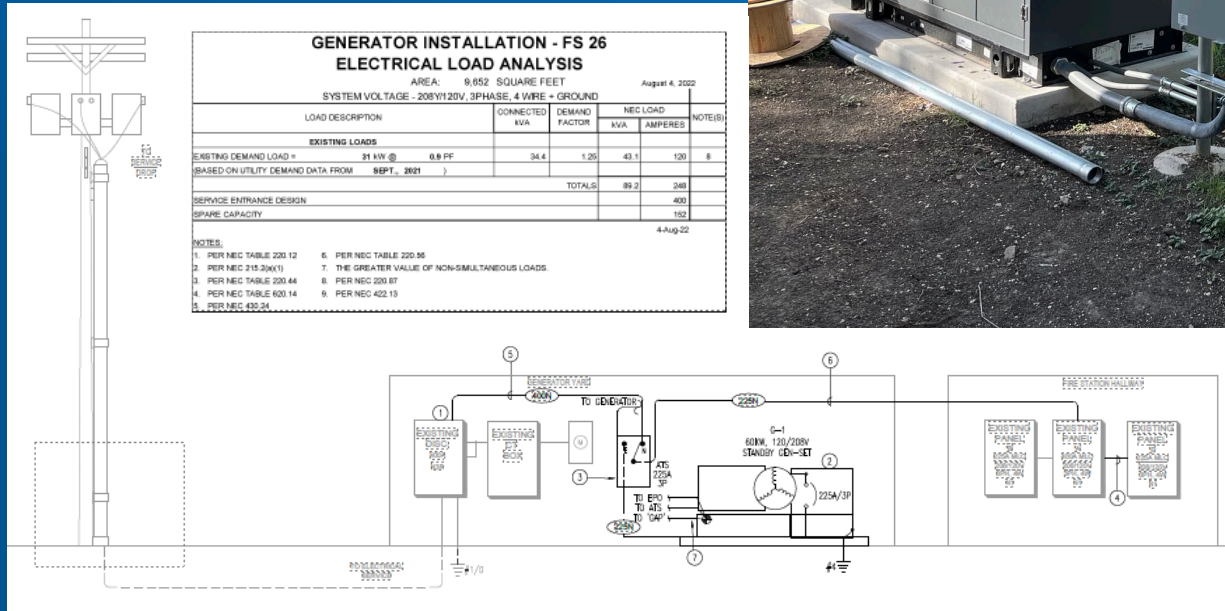

FS 54 – 1215 North Foster Road – D2

SAFD Services Facility – 230 South Callaghan – D6

Design - Build Services

The Design-Build services include all engineering, procurement of generators, transfer switches and associated equipment, installation and commissioning as required for a complete and functional installation.

Recommendations

- The State and Local Fiscal Recovery Fund requires the project be awarded by the end of December 2024, with construction being completed by the end of December 2025 for the funding to be available.
- Because of the funding deadlines, SAFD staff recommends authorization of the agreement with C.A. Bass Telecom Management Services.
