Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the Heritage South Sector Plan and is currently designated as General Urban Tier in the future land use component of the plan. The requested "R-4" base zoning district is consistent with the future land use designation.
2. **Adverse Impacts on Neighboring Lands:** Staff does find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The existing "R-6" Residential Single-Family is appropriate with the established development pattern of the surrounding area.

3. **Suitability as Presently Zoned:** The existing “R-6” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The additional density of the proposed “R-4” is unnecessary. Further, the property can be developed as “R-6” Residential Single-Family. The primary difference is 6,000 square foot lots versus 4,000 square foot lots, which comes down to 32 homes versus 48 homes respectively. By remaining “R-6,” this allows diversity of housing types.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does appear to conflict with any public policy objective of the Heritage South Sector Plan.

Goal HOU-1 An array of housing choices throughout the area with an appropriate mix of densities and housing types.

6. **Size of Tract:** The 4.481 acre site is of sufficient size to accommodate the proposed residential development.
7. **Other Factors** The subject property is located within the Lackland AFB Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JBSA was notified of the proposed request. The Military has indicated that there are no objections to this request.
