Land Use Category: “Natural Tier”

Description of Land Use Category: The Natural Tier serves as a connective use for the other tiers and centers. This tier includes floodplains, parks, designated natural areas, and recreational areas. It is dispersed throughout the entire Sector in a pattern that acknowledges the natural drainage system and adjacent parks and open spaces, and provides opportunities for active and passive recreation.

Permitted Zoning Districts: RP, G

Land Use Category: “Country Tier”

Description of Land Use Category: Commercial uses in the Country Tier should be located at the intersections of arterials and collectors or rural roads, or clustered into rural commercial villages.

Generally: Large tract detached single family housing; Served by well water and septic systems; Lots greater than 10 acres.

Permitted Zoning Districts: RP, FR

Land Use Category: “Suburban Tier”

Description of Land Use Category: Commercial uses in Suburban areas serve both neighborhood and community scale markets. Neighborhood commercial is appropriate at the intersection of residential streets and collectors, and should not encroach into residential areas. Neighborhood uses should be accessible by pedestrians. Community commercial should be located at the intersections of arterials and/or collectors. RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial. Planning Commission recommends Approval.

The proposed land use amendment from “Natural Tier” and “Country Tier” is requested in order to rezone the property to “R-5” Residential Single-Family District. The proposed “Suburban Tier” land use designation is not appropriate given surrounding land uses. Although the property is primarily abutting vacant land, the surrounding area contains heavy industrial uses that would not be compatible with residential development.

Sector Plan Criteria for review:

- The recommended land use pattern identified in the Heritage South Sector Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Heritage South Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the Heritage South Sector Plan.
- The amendment will not adversely impact a portion of, or the entire Planning Area by:
 - Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
 - Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
 - Creating activities that are not compatible with adjacent neighboring uses.
 - Significantly alter recreational amenities such as open space, parks, and trails.

On April 5, 2022, the Zoning Commission recommended Approval of the zoning change request.
