

CITY OF SAN ANTONIO OFFICE OF HISTORIC PRESERVATION

APPLICATION FOR CHANGE OF ZONING

Request:

The Office of Historic Preservation requests a change of zoning to add “HL” Historic Landmark designation to 927 W Mulberry Ave and to waive all related fees. *OHP staff recommends approval.*

Case Comments:

On February 2, 2022, the Historic and Design Review Commission (HDRC) agreed with the applicant’s request for a Finding of Historic Significance and supported the designation of the property as a local landmark.

Case History:

April 5, 2022	Zoning Commission hearing
February 2, 2022	Historic & Design Review Commission (HDRC) hearing
January 13, 2022	Application for Historic Landmark Designation submitted to OHP

Applicable Citations:

Note: In accordance with the process for designation of a historic landmark, as outlined in Section 35-607 of the UDC, properties must meet three of sixteen criteria. This property meets three Criteria for Evaluation.

Unified Development Code Sec. 35-607. – Designation Criteria for Historic Districts and Landmarks.

- a. **Process for Considering Designation of Historic Districts and Landmarks.** Historic districts and landmarks shall be evaluated for designation using the criteria listed in subsection (b) and the criteria applied to evaluate properties for inclusion in the National Register. In order to be eligible for historic landmark designation, properties shall meet at least three (3) of the criteria listed. Historic districts shall consist of at least two (2) or more structures within a legally defined boundary that meet at least three (3) of the criteria. Additionally, all designated landmarks and districts shall demonstrate clear delineation of the legal boundaries of such designated resources.
- b. Criteria for Evaluation.
 3. **Its identification with a person or persons who significantly contributed to the development of the community, county, state, or nation;**
 5. **Its embodiment of distinguishing characteristics of an architectural style valuable for the study of a period, type, method of construction, or use of indigenous materials;**
 13. **It bears an important and significant relationship to other distinctive structures, sites, or areas, either as an important collection of properties or architectural style or craftsmanship with few intrusions, or by contributing to the overall character of the area according to the plan based on architectural, historic or cultural motif.**

Findings of Fact:

- a. The request for landmark designation was initiated by the property owners.
- b. **HISTORIC CONTEXT:** The property at 927 W Mulberry Ave is a two-story Neoclassical residence with carport, servants’ quarters, and root cellar, designed and built by H. L. Scott in 1910 for Emmett B. Cocke. It is located in the Beacon Hill Area neighborhood conservation district (NCD-5) of City Council District 1. Robert and Juliet Gudel currently own the property. Emmett B. Cocke was a prominent lawyer in San Antonio whose contributions, land ownership, cases from his law firm, and historic papers highlight his contributions to the San Antonio and surrounding communities. Additionally, 200 acres of his land was leased to the federal government for

CITY OF SAN ANTONIO OFFICE OF HISTORIC PRESERVATION

construction of Kelly Field. Emmett B Cocke II grew up in the home; Emmett II's work as an architect in San Antonio includes industrial facilities, warehouses, office buildings, shopping centers, malls, and university campuses. He was architect for St Mary's Hall, along with O'Neil Ford, and was also architect for the Witte Museum, the Frost Bank, Baptist Memorial Hospital, and North Star Mall. He also contributed buildings to Trinity University and University of Texas Health Science Center. Beacon Hill evolved during San Antonio's first and greatest expansion, which began in the 1850s and continued with few interruptions until the Great Depression. The neighborhood grew around the San Antonio Street Railway Trolley lines that originally provided access to historic San Pedro Springs Park.

- c. **SITE CONTEXT:** The south-facing house is on a block bound to the south by W Mulberry Ave, the east by Blanco Rd, the north by W Agarita Ave, and the west by Grant Ave. The block includes Neoclassical, Craftsman, and Spanish Eclectic, with a few examples of more modern infill. A divorced sidewalk runs through large front yards; driveways appear as either full-width concrete or ribbon drives. The house is on a large lot and has an inground pool on the west side of the parcel. The backyard is enclosed by a metal and wood privacy fence with a gate across the driveway. 927 W Mulberry was the first home constructed on this block, which today features an eclectic mixture of styles including Craftsman, Vernacular, and some modern infill.
- d. **ARCHITECTURAL DESCRIPTION:** The Neoclassical house is constructed of buff brick with prominent Corinthian columns, a double-height, full-façade porch, and brick chimneys. It has a composition shingle gable-on-hip room with a rounded dormer on the primary facade. Windows are one-over-one wood windows with 11-over-one wood screens. The property includes carport with original doors, servant quarters, and stone root cellar building.
- e. **EVALUATION:** In order to be eligible for historic landmark designation, properties shall meet at least three (3) of the 16 criteria listed. Staff evaluated the structure against all 16 criteria and determined that it was consistent with UDC sec. 35-607(b):
 - 3. Its identification with a person or persons who significantly contributed to the development of the community, county, state, or nation;** 927 W Mulberry Ave was built for prominent lawyer and landowner Emmett B. Cocke and was home to prominent architect Emmett B. Cocke II.
 - 5. Its embodiment of distinguishing characteristics of an architectural style valuable for the study of a period, type, method of construction, or use of indigenous materials;** the home is an example of a Neoclassical residence, with double-height, full-façade porch with Corinthian columns, gable-on-hip roof, and buff brick cladding.
 - 13. It bears an important and significant relationship to other distinctive structures, sites, or areas, either as an important collection of properties or architectural style or craftsmanship with few intrusions, or by contributing to the overall character of the area according to the plan based on architectural, historic or cultural motif;** 927 W Mulberry Ave is located in the Beacon Hill Area neighborhood conservation district (NCD-5), which staff has identified as an eligible local historic district. Should the neighborhood choose to designate, the property would be listed as contributing.
- f. The City offers a tax incentive for the substantial rehabilitation of historic properties because historic landmarks possess cultural and historical value and contribute to the overall quality and character of the City and its neighborhoods. If historic designation is approved, rehabilitation and restoration work may be eligible for this incentive. State and Federal tax incentives are also available for properties listed on the National Register of Historic Places and provide substantial relief for rehabilitation projects.

CITY OF SAN ANTONIO
OFFICE OF HISTORIC PRESERVATION

- g. If the HDRC approves the Finding of Historic Significance, then the recommendation for designation is submitted to the zoning commission. The zoning commission will schedule a hearing and then forward its recommendation to the City Council. City Council has the ultimate authority to approve the historic designation zoning overlay.
- h. Per UDC Sec. 35-453, once the commission makes a recommendation for designation, property owners must receive a written approval (a Certificate of Appropriateness) for any exterior work until the City Council makes their final decision.

HDRC CASE NO: 2022-066
ADDRESS: 927 W MULBERRY AVE
LEGAL DESCRIPTION: NCB 1803 BLK 24 LOT 33 THRU 38
APPLICANT: Robert & Juliet Gudgel - 927 W Mulberry Ave
OWNER: Robert & Juliet Gudgel - 927 W Mulberry Ave

REQUEST:

The applicant is requesting a Finding of Historic Significance for the property located at 927 W Mulberry Ave.

FINDINGS:

- a. The request for landmark designation was initiated by the property owners.
- b. **HISTORIC CONTEXT:** The property at 927 W Mulberry Ave is a two-story Neoclassical residence with carport, servants' quarters, and root cellar, designed and built by H. L. Scott in 1910 for Emmett B. Cocke. It is located in the Beacon Hill Area neighborhood conservation district (NCD-5) of City Council District 1. Robert and Juliet Gudgel currently own the property. Emmett B. Cocke was a prominent lawyer in San Antonio whose contributions, land ownership, cases from his law firm, and historic papers highlight his contributions to the San Antonio and surrounding communities. Additionally, 200 acres of his land was leased to the federal government for construction of Kelly Field. Emmett B. Cocke II grew up in the home; Emmett II's work as an architect in San Antonio includes industrial facilities, warehouses, office buildings, shopping centers, malls, and university campuses. He was architect for St Mary's Hall, along with O'Neil Ford, and was also architect for the Witte Museum, the Frost Bank, Baptist Memorial Hospital, and North Star Mall. He also contributed buildings to Trinity University and University of Texas Health Science Center. Beacon Hill evolved during San Antonio's first and greatest expansion, which began in the 1850s and continued with few interruptions until the Great Depression. The neighborhood grew around the San Antonio Street Railway Trolley lines that originally provided access to historic San Pedro Springs Park.
- c. **SITE CONTEXT:** The south-facing house is on a block bound to the south by W Mulberry Ave, the east by Blanco Rd, the north by W Agarita Ave, and the west by Grant Ave. The block includes Neoclassical, Craftsman, and Spanish Eclectic, with a few examples of more modern infill. A divorced sidewalk runs through large front yards; driveways appear as either full-width concrete or ribbon drives. The house is on a large lot and has an inground pool on the west side of the parcel. The backyard is enclosed by a metal and wood privacy fence with a gate across the driveway. 927 W Mulberry was the first home constructed on this block, which today features an eclectic mixture of styles including Craftsman, Vernacular, and some modern infill.
- d. **ARCHITECTURAL DESCRIPTION:** The Neoclassical house is constructed of buff brick with prominent Corinthian columns, a double-height, full-façade porch, and brick chimneys. It has a composition shingle gable-on-hip room with a rounded dormer on the primary façade. Windows are one-over-one wood windows with 11-over-one wood screens. The property includes carport with original doors, servant quarters, and stone root cellar building.
- e. **EVALUATION:** In order to be eligible for historic landmark designation, properties shall meet at least three (3) of the 16 criteria listed. Staff evaluated the structure against all 16 criteria and determined that it was consistent with UDC sec. 35-607(b):
 3. Its identification with a person or persons who significantly contributed to the development of the community, county, state, or nation; 927 W Mulberry Ave was built for prominent lawyer and landowner Emmett B. Cocke and was home to prominent architect Emmett B. Cocke II.
 5. Its embodiment of distinguishing characteristics of an architectural style valuable for the study of a period, type, method of construction, or use of indigenous materials; the home is an example of a Neoclassical residence, with double-height, full-façade porch with Corinthian columns, gable-on-hip roof, and buff brick cladding.
 13. It bears an important and significant relationship to other distinctive structures, sites, or areas, either as an important collection of properties or architectural style or craftsmanship with few intrusions, or by contributing to the overall character of the area according to the plan based on architectural, historic or cultural motif; 927 W Mulberry Ave is located in the Beacon Hill Area neighborhood conservation district (NCD-5), which staff has identified as an eligible local historic district. Should the neighborhood

choose to designate, the property would be listed as contributing.

f. The City offers a tax incentive for the substantial rehabilitation of historic properties because historic landmarks possess cultural and historical value and contribute to the overall quality and character of the City and its neighborhoods. If historic designation is approved, rehabilitation and restoration work may be eligible for this incentive. State and Federal tax incentives are also available for properties listed on the National Register of Historic Places and provide substantial relief for rehabilitation projects.

g. If the HDRC approves the Finding of Historic Significance, then the recommendation for designation is submitted to the zoning commission. The zoning commission will schedule a hearing and then forward its recommendation to the City Council. City Council has the ultimate authority to approve the historic designation zoning overlay.

h. Per UDC Sec. 35-453, once the commission makes a recommendation for designation, property owners must receive a written approval (a Certificate of Appropriateness) for any exterior work until the City Council makes their final decision.

RECOMMENDATION:

Staff recommends approval of a finding of historic significance and that the Historic and Design Review Commission should recommend approval for the landmark designation of 927 W Mulberry Ave to the Zoning Commission and to the City Council based on findings a through e.

COMMISSION ACTION:

Approved as submitted.

Statement of Significance
Robert & Juliet Gudgel
927 W. Mulberry Ave

Architectural Description

This property is Neoclassical and is constructed of buff brick with prominent Corinthian columns with capitols, a large two-story front porch, 4 brick fireplaces, classic sunroom, and large windows. The home includes carport with original doors, servant quarters, and stone root cellar building. (Illustrated Page 4, 1911 Sanborn Fire map)

Property History

Beacon Hill, (R-6), Lots 33-38 were purchased on September 28, 1908 by Emmett B. Cocke for \$1926. The home was completed in 1910 as the first home on the 900 block of W. Mulberry Avenue. (Page 3, Newspaper article) There were three long term families that lived in the home.

1. Emmett & Elizabeth Cocke and their 4 children --1910-1965
2. Victor Roland Lopez & Joanne Marie Tabares and their 2 children -- 1966-1969
3. Robert & Dinah Crowley and their son -- 1969-2007
4. The home changed hands through the years with a few short-term owners.

Its identification with a person or persons who significantly contributed to the development of the community, county, state, or nation;

This property was the home of Emmett Bartlett Cocke and Elizabeth Bessie Hill and their four children. Emmett Cocke (1871-1965) was a prominent lawyer in San Antonio. For most of his career his office was located in the historic "Book Building" in San Antonio and also used a home office. His contributions, land ownership, cases from his law firm and historic papers highlight his contributions to the San Antonio and surrounding communities. (Ref 1)

Significant Contributions to San Antonio "Military City USA" - During World War I the government needed more land for its infant air service at Kelly Field. The perfect site was 200 Acres of Emmett Cocke's land. Interestingly, Emmett was out of town at the time the San Antonio Chamber of Commerce officials approved the lease, assuring the government that Emmett was a patriot and would not object. Once he returned to town, he was thrilled to see the progress of Kelly Field. He said *"he saw it as a blessing"* that he was able to help in an emergency. This new tract became known as Kelly Number 2. (*Originally consisted of 14 hangers*). JN-Jennies were landing as early as 1917, and within a n few months 4,400 men were housed on Kelly Field feeding the growing aviation war efforts. (Ref 2, Ref 3)

Emmett and Bessie Cocke's son, Emmett Bartlett Cocke II (1901-1992) grew up in the home and after graduating high school attended and graduated from University of Texas, Austin 1922 and the School of Architecture at MIT. In 1924 he returned to San Antonio and began his apprenticeship as a draftsman with the Kelwood Company. Three years later he opened his own firm in partnership with Marvin Eickenroht and was

an architect for San Pedro Playhouse in 1929. He subsequently designed houses in San Antonio and surrounding towns, deriving inspiration from vernacular Texas ranch homes and Greek revival structures. Among other accomplishments Cocke won his first major public commission to design the Joske's of Texas on Alamo Plaza in San Antonio. His practice grew to include schools, industrial facilities and warehouses, office buildings, shopping centers, malls and college and university campuses. Notably he also worked as architect for St Mary's Hall, the Witte Museum, the Frost Bank building, Baptist Memorial Hospital and North Star Mall. Later in life he continued on with buildings for Trinity University and University of Texas Health Science Center. (Ref 4)

One of the long term owners were Robert Crowley (1934-2007) and Dinah Crowley (1933-2003). They moved into the home in the 1969. Their family business was Crowley-Stained Glass. It is said that many of their creations still adorn homes in Beacon Hill and surrounding historic neighborhoods. Their business was run out of their home until Robert's death in 2007. The home was said to be in terrible shape. The roof was open, and it was said that that the country wanted to condemn the property. Fortunately, the home was purchased and saved.

Its character as an established and geographically definable neighborhood, united by culture, architectural style or physical plan and development; Located in Beacon Hill, a Neighborhood Conservation District in San Antonio. Beacon Hill has a community garden, a neighborhood linear park, and a large number of public art installations. We have arguably the highest concentration of bungalows in the city, as well as cottages, four-square, Italianate, and Spanish colonial revival homes. Our neighborhood association (BHANA) was established in 1978 and works for preservation, protection, development, and overall betterment of the Beacon Hill Area.

Beacon Hill is a unique older neighborhood that evolved during San Antonio's first and greatest expansion, which began in the 1850s and continued with few interruptions until the Great Depression of the 1930s. These neighborhoods grew around the San Antonio Street Railway Trolley lines that originally provided access to historic San Pedro Springs Park. The Electric Trolley and easy commute to downtown was a draw to Beacon Hill and surrounding neighborhoods grew. The Beacon Hill History site highlights that *Many of the city's most prominent citizens were the first to move into San Antonio's first suburbs which were located high above the overcrowded central city and many of whose homes were designed by some of the city's most respected architects.* (Ref 5)

Its embodiment of distinguishing characteristics of an architectural style valuable for the study of a period, type, method of construction, or use of indigenous materials. Our Neoclassical homes simplicity, symmetry and grandeur is centered on lots 33-38. This symmetrical neoclassical house has a large front yard that highlights a full height double porch supported by tall Corinthian columns/capitals. The Corinthian style has opulent ornamentation carved to resemble leaves and flowers. The

home was built to entertain inside and out. It is through our research we learned that many of the neoclassical houses are typically designed by local Architects and constructed of local regional material. That is true of the locally manufactured buff brick that our home is constructed of. Currently the architect is unknown, but the home resembles other great San Antonio Historic Neoclassical homes such as the Davis House (1907), designed by Henry Phelps and the Armand Halff House (1907) designed by Atlee Ayres. (Ref 6, Ref 7) After researching the neighborhood our home seems to be a one of a kind. There are Neoclassical homes in Beacon Hill; however, we have not found a copy of ours making it a part of the Beacon Hill's unique neighborhood history and charm.

BEACON HILL TRACT

"THE QUEEN SUBURB"

In Beacon Hill Tract, you will find the finest type of an exclusive high-grade homesite development, designed for and sold only to people of recognized standing. If you have not seen Beacon Hill, you have not seen San Antonio.

Luxury, culture and refinement are everywhere in evidence there. Beautiful well kept lawns, broad, clean macadamized streets, trees, flowers and shrubbery all combine to make this a place of beauty and a delightful residential district. The price of lots in Beacon Hill are intrinsically much cheaper than they are in other restricted residence districts in San Antonio---\$150 to \$1000 per lot, our prices invariably being for full 50 feet frontage---Easy monthly installments if desired.

HOW TO SEE THE PROPERTY

Take or transfer to Beacon Hill car anywhere on Houston St. Get off at pavilion Grant & Mistletoe, or 'phone for auto appointment.

OUR STREET CARS.

**Proposed Changes and Extension--
Reduction in Fares.**

The Alamo and the San Antonio Electric Street Car Companies have inaugurated and thoroughly tested the electric street cars and find that they give satisfaction, working nicely, rapidly and without a hitch.

To the Alamo Company are due the thanks for the able and timely street car accommodation, and to Mr. Weiss' road thanks for the relief of the suffering passengers, drivers and mules.

The Alamo electric street cars will run regular between Navarro street and the fair grounds, the following being their hours; from 6 a. m. to 9:30 p. m. every 15 minutes, oftener and longer if occasions demand. After 9:30 p. m. every 30 minutes, the last car leaving the city at 11:10. A very appreciable move on the part of this company, is the reduction of the street car fare over this line from 10 cents to 5 cents for every person over six years of age.

This road will continue on its extension up Martin street to Avenue E, in a day or two, and the work on their lines up Crockett street to the cemetery, and through Augusta street to Beacon Hill, will be begun so that they will be entirely completed by January 1st.

"The San Antonio Street Car company will run electric cars from Alamo plaza to the Aransas Pass depot in a day or two, probably tomorrow," said President Weiss. "The

Additional Information to include Kelly Field References

Emmett B. Cocke,
Eyewitness to Acquisition of Kelly's Land

During WWI (probably about 1917) while Mr. Emmett B. Cocke (pronounced cock) was away on a legal case, 200 acres of land that he owned was taken over by the Government for Kelly AFB. This was farm land on which he had tenants living. During Mr. Cocke's absence, the San Antonio Chamber of Commerce officials who were well acquainted with Mr. Cocke took the responsibility of assuring the Government that Mr. Cocke would agree.

As I understand it, Mr. Cocke was only out of town from Sunday till Thursday, but on his return the Government had moved his tenants off the land, cut down part of the crops, laid a railroad track from the main line to the artesian well, cut the barn in half, and converted the tenant's house to a drafting room for laying out the place. This was considered necessary because of the emergency of WWI and the fact that the well and surrounding land were needed immediately.

Upon taking possession of the land, the tenant farmers were paid for the value of their crops- about \$1700. The Government did not have the money to buy the land from Mr. Cocke at that time; however, after the war (about two years later), the Government did buy his land in view of the improvements they had made upon it.

As the San Antonio Chamber of Commerce officials predicted, Mr. Cocke was a patriotic man and agreeable to assist the Government in any way he could and raised no objections to their taking possession of his property, although it was considered by Mr. Cocke, at least as an unusual procedure.

Mr. Cocke is now 91. From talking with him on the telephone, his mind appears to be sharp, and being a lawyer, he is well educated.

E. McGaffey from telephone conversation
with Mr. Cocke, 28 July 1961

Sam Evers, aboard his Alice Chalmers tractor, levels the air strip at Kelly Field Number 2. In 1917, Evers was paid \$25 a day for each of the five tractors he used in the construction.

https://books.google.com/books?id=BuBohewic5UC&pg=PP11&lpg=PP11&dq=emmett+b+cock+and+kelly+field&source=bl&ots=-sbrQApP_z&sig=ACfU3U34fytk03023ddX5PcQQZQqXJE94kg&hl=en&sa=X&ved=2ahUKEwjK3_fisar1AhU3JDQIHVYWCY0Q6AF6BAgREAM#v=onepage&q=emmett%20b%20cock%20and%20kelly%20field&f=false

government attorneys, determining fair rental values and persuading local landowners to yield to the terms. In mid-July 1917, the government agreed to the terms, and construction on this new portion of the field began on July 24.

The owner of one 200-acre tract was Emmett B. Cocke of San Antonio, who was amazed at the speed at which the contractors went to work. Briefly out of town for five days, he returned to find his tenants moved off the land, a large portion of the current cotton crop already chopped down, a small railroad spur laid from the main line to the artesian well, a barn cut in half, and one tenant cottage converted into a construction crew headquarters and drafting room. Government agents paid tenants a total of \$1,700 for their crops and brought in 500 laborers to cut mesquite, level roadbeds for railroad tracks, and begin construction of foundations for the barracks and hangars at the field. Many people might be upset over the sudden loss of their land, but even years later Mr. Cocke saw it as "a blessing" that he was able to help in the emergency.

The newly acquired land north of the original site was soon unofficially known as Kelly Number 2, with the site first chosen by Foulois called Kelly Number 1. Kelly Number 2 was, in fact, designed from the beginning to accommodate double the number of hangars of a normal field. For a time portions of it,

particularly an area of open fields adjacent to the north, were called Kelly Number 3, although this terminology disappeared during the war. In addition, the Air Service constructed three more fields around San Antonio, initially numbering each under the name Kelly Field and posing numerous difficulties for future historians. Kelly Number 4 was essentially an open field whose exact location has never been determined. Based on distances mentioned in old news articles and reminiscences, it was apparently several miles north-northwest of the main field, near the junction of today's Military Drive and Potranco Road. Kelly Number 6 was also a small auxiliary field with rudimentary refueling facilities and no permanent buildings. It was apparently located about two or three miles southeast of the main field, probably just north of the site of Palo Alto College. Kelly Number 5 had only a brief existence as one of the numbered fields before being renamed Brooks Field in February 1918. Cadet Sidney J. Brooks of San Antonio was the first fatal casualty at Kelly, crashing on November 13, 1917. After naming Brooks Field in his honor, the Air Service promptly leased the airfield owned by the Stinson family and began calling it Kelly Number 5. This rapid proliferation of numbers not only remains confusing today, but it simply reflects the near chaotic changes taking place throughout the American military as it geared up for war.

https://books.google.com/books?id=yS5xEb9df2YC&pg=PA13&lpg=PA13&dq=emmett+cocke+and+kelly+field&source=bl&ots=QATJP8f9uw&sig=ACfU3U1LW0FqhN9sHvhNen5nh8btq8IjKg&hl=en&sa=X&ved=2ahUKEwinh5f_uar1AhXaFjQIHbCIDxEQ6AF6BAGWEAM#v=onepage&q=emmett%20cocke%20and%20kelly%20field&f=false

Anderson, recent arrivals from the 1st Aero Squadron, Captain Carl Spaatz, whose name was consistently rendered as "Spotts" by the local press; and Eddie Stinson, a civilian flying instructor who lived in San Antonio. According to local legend, since none of the buildings were complete, the flyers slept that night underneath the wings of their planes. The more prosaic truth is that the planes were housed in tent hangars, familiar to the pilots along the border, while the men were also quartered in tents.

To Build an Air Service

Within weeks, 4,400 recruits flooded the new field. Wooden mess halls and latrines sprang up, but most of the men lived in ordered rows of pyramid-shaped tents. The 3d Aero Squadron was joined by a 4th and 5th, along with a Provisional Aero Squadron which acted as a reception agency for the crowd of new men arriving daily. In June 1917, Colonel Charles E. Tayman arrived to take control and discovered that he had only 25 officers to supervise approximately 5,700 men.

One of Colonel Tayman's first steps was to name his new command.

At his suggestion, on June 11, Brigadier General James Parker, Commander of the Southern Department, issued an order designating the field as Camp Kelly in memory of Lieutenant George E.M. Kelly, the first American military aviator to die in the crash of a military airplane. Six weeks later, another order

granting the aid of the local Chamber of Commerce, Colonel Tayman and his staff promptly obtained lease agreements for another 1,800 acres of land immediately to the north northwest of the original site. That original site was now known as Kelly Field Number 1 and the new area as Kelly Field Number 2. With speed crucial, the government agreed to the terms in mid-July, and workers began constructing wooden hangars, mess halls, barracks, and other buildings.

The owner of one 200-acre tract, Emmett B. Cocke of San Antonio, was amazed at the speed at which the contractors went to work. Out of town for five days, Cocke returned to find his tenants moved off the land, a large portion of the current cotton crop

A group of Jennies prepare to lift off the grass. In the shelter are cadets awaiting their turn at the controls.

already chopped down, a small railroad spur laid from the main line to the artesian well, a barn cut in half, and one tenant cottage converted into a construction crew headquarters and drafting room.

Standard plans called for a field to have 12 hangars, along with the necessary other structures. With 24 hangars, Kelly Field Number 2 was twice as large, and even then space was tight. Planners

in the Aviation Section decided to establish several other fields in the immediate area, numbering rather than naming them. Plans called for an eventual total of some six Kelly Fields, most of which were simple auxiliary fields with few, if any, permanent buildings. However, Kelly Number 5 took on a life of its own.

A History of Military Aviation San Antonio

rons, with AAVS and the two remaining squadrons re-designated to more clearly identify the units with the combat camera mission. There also will be five regional centers in the United States and at least two combat camera units overseas.

The two newly formed squadrons at March AFB, Calif., and Charleston AFB, S.C., and the overseas units' primary tasks are to cover events, and assemble coverage for operational analysis and move it immediately to combat commanders, analysts and senior officials, Diamond said.

The regional centers will be at the Pentagon; Lackland AFB, Texas; Hill AFB, Utah; Keesler AFB, Miss., and Wright-Patterson AFB, Ohio.

Diamond Anniversary

Kelly AFB, Texas — While watching TV at a local nursing home, Grace Cocke Peyton learned about **Kelly's 75th anniversary** celebration in November. She told others that part of the base had been her father's farm.

No one believed her. So she called Kelly just to "let someone know" how proud she was of the base and to verify her claim.

It was true, and Kelly officials invited the 87-year-old to honor her at the celebration. In the photo, Maj. Gen. Richard D. Smith, San Antonio Air Logistics Center commander helps Peyton cut the anniversary cake.

During World War I, the government needed more land for its infant air service at Kelly Field. The perfect site was about 250 acres of Emmett B. Cocke's land.

Although Cocke was out of town at

the time, Chamber of Commerce officials approved the lease, assuring the government that he was patriotic and wouldn't object. He didn't, she said.

1977, and the concert took contact some of these Hall of Fame, but for this
