PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:

The subject property is not located with a Regional Center or Premium Transit Corridor

RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial. Zoning Commission recommends Approval.

1. Consistency: The subject property is located within the Heritage South Sector Plan and is currently designated as “Rural Tier” and “Country Tier” in the future land use component of the plan. The requested “R-5” base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to “Suburban Tier”. Staff recommends Denial. Planning Commission recommends Approval.

2. Adverse Impacts on Neighboring Lands: Staff does find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is not consistent with the established development pattern of the surrounding area.

3. Suitability as Presently Zoned: The existing “FR” Farm and Ranch District is an appropriate zoning for the property and surrounding area. The requested “R-5” Residential Single-Family is not an appropriate zoning for the property and surrounding area. The subject property is primarily

abutting vacant property outside city limits. However, the wider surrounding area is largely made up of industrial uses. The “FR” Farm Ranch maintains agricultural and ranch land as prescribed by the Heritage South Sector Plan.

4. Health, Safety and Welfare: Staff has found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy: The proposed rezoning does appear to conflict with the following goals, principles, and objectives of the Heritage South Sector Plan.

Relevant Goals, Recommendations and Strategies of the Heritage South Sector Plan may include:

- Goal ED-4 Heritage South established as a viable agricultural region
- Goal LU-1 Land uses that are compatible with neighboring properties that preserve natural and cultural resources, neighborhood character, and economic viability
 - LU-1.1 Promote preservation of natural and historic resources (e.g. Mitchell Lake Audubon Center and Wildlife Refuge Center) through conservation easements and strategic land acquisitions where appropriate
 - LU-1.3 Promote nodal commercial development and community centers where various modes of transportation are accessible

6. Size of Tract: The 64.490-acre site is of sufficient size to accommodate the proposed residential development.

7. Other Factors: The applicant seeks to rezone the property to develop approximately 240 single-family dwellings.
