RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Planning Commission recommend Approval.

The applicant seeks a Plan Amendment to “General Urban Tier” to rezone to “MF-25” Low Density Multi-Family District from the current “MF-18” Limited Density Multi-Family District. The proposed land use is appropriate for the area which is predominantly “Agribusiness RIMSE Tier”. The “General Urban Tier” designation would act as a transitional buffer between the two land uses, with intensity increasing towards the Corridor. The location of the proposed land use is also appropriate given its location at the intersection of a major arterial, an appropriate spot for medium and higher density residential uses. The area is also largely vacant with a strip business park that has been abandoned, the proposed land use change to “General Urban Tier” will allow development and consolidation of underutilized properties along Southton Road.

Sector Plan Criteria for review:

- The recommended land use pattern identified in the Heritage South Sector Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the Heritage South Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the Heritage South Sector Plan.
- The amendment will not adversely impact a portion of, or the entire Planning Area by:
 - Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
 - Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
 - Creating activities that are not compatible with adjacent neighboring uses.
 - Significantly alter recreational amenities such as open space, parks, and trails.
