**ALTERNATIVES:**

Current Zoning: “R-6” Residential Single-Family District permits single-family dwelling (detached) with a minimum lot size of 6,000 square feet and a minimum lot width of 50 feet, foster family home, public and private schools.

Proposed Zoning: “MF-18” Limited Density Multi-Family District allows multi-family dwellings to a density of 18 units per acre.

**FISCAL IMPACT:**

None

**PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:**

Subject property is not located within any Regional Center, and not located within ½ a mile from any Transit Corridor.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff and SAWS recommends Approval.

SAWS recommends 50% impervious cover limitation.

**Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.**

- 1. Consistency:** The subject property is located within the North Sector Plan and is currently designated as "Suburban Tier" in the future land use component of the plan. The requested "MF-18" base zoning district is consistent with the future land use designation.
- 2. Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed residential use is consistent with the established development pattern of the surrounding area.

3. **Suitability as Presently Zoned:** The existing “R-6” Residential Single-Family District is an appropriate zoning for the property and surround area. The proposed “MF-18” Limited Density Multi-Family District is also an appropriate zoning for the property and allows for diverse housing types while keeping the character of the area. Further, the allowance of more housing supports the Strategic Housing Implementation Plan.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does/does not appear to conflict with any public policy objectives of the North Sector Plan.

**Goal HOU-1:** Continued support for development of diverse housing stock using infill housing development between Loop 1604 and Loop 410.

**Goal HOU-2:** High density housing is developed near post-secondary education facilities, principal and arterial transportation routes, and major employment areas

6. **Size of Tract:** The 7.304 acre site is of sufficient size to accommodate the proposed residential development.
7. **Other Factors:** Based on the information provided to SAWS staff, SAWS identifies the subject property as a Category 2 property. SAWS staff recommends approval of the zoning request, provided that the impervious cover shall not exceed 50% on the site. Reference SAWS report dated September 21, 2022.

The property is proposed for development of multifamily uses that shall not exceed 18 units per acre. At 7.304 acres, there could potentially be development of 131 units.

For properties zoned “RM” or “MF” that abut lots zoned residential or are developed with a single-family use, the height is restricted to the maximum height of the single-family district within 50 feet of the property line
