**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval.

The applicant is amending at the podium to add the “IDZ” Infill Development Zone Overlay to address parking. The applicant will maintain the existing 3 parking spaces established on the lot.

**Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.**

1. **Consistency:** The subject property is not located within a Neighborhood, Community, or Sector Plan therefore a finding of consistency is based on existing and surrounding zoning and uses.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is

consistent with the established development pattern of the surrounding area, and the proposed density is compatible.

- 3. Suitability as Presently Zoned:** The current “R-6” Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed “R-6 CD” Residential Single-Family District with a Conditional Use for four (4) dwelling units is also appropriate. The property was historically zoned to permit multi-family use, and developed as a four-plex in 1925, which has been continuously operating as such throughout the years. Due to a large area rezoning, approved by City Council on February 2, 2023, the existing four-plex was zoned out of compliance. The rezoning proposal will bring the four units back into compliance, and the “CD” Conditional Use will hold the existing structure to a prescribed site plan. The proposal is also consistent with the goals of the Strategic Housing Implementation Plan (SHIP), which encourages diverse housing options for all income levels.
- 4. Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
- 5. Public Policy:** The request does not appear to conflict with any public policy objectives of the SA Comprehensive Plan:
  - H Goal 2: A variety of housing types (single-family detached, single-family attached, multifamily, as well as ownership and rental opportunities) is available at a variety of price and rent levels.
  - H Goal 3: Housing choices are available in walkable and bikeable neighborhoods located near transit, employment, retail, medical and recreational amenities.
  - H P10: Ensure land use designations and other policies allow for and encourage a mixture of housing types and densities of housing within development projects.
- 6. Size of Tract:** The subject property is 0.1396 acres, which can reasonably accommodate the proposed residential development.
- 7. Other Factors** The applicant intends to rezone to “R-6 CD” to develop bring an existing fourplex into compliance.

On January 11, 2023, the property successfully underwent the City of San Antonio Address Assignment/Verification process, where the four units were assigned unit numbers. (ADDR-AVAA-23-10100026)

The proposed rezoning maintains the residential base district but is seeking to make the existing four (4) units on the property compliant. A rezoning application does not allow Short Term Rentals (STRs) as a use by right. Any applicant seeking to operate an STR must follow the appropriate City and Unified Development Code (UDC) processes and is required to apply and qualify for STR permit(s) through those processes. Short Term Rentals are governed by the UDC Section 16.1100. Also see Section 35-374.01 for STR density limitations, Section 35-399 for establishment regulations, and Section 35-482 for procedures regarding consideration of special exceptions.
