**ISSUE:**

None.

**ALTERNATIVES:**

Current Zoning: “R-6” Residential Single-Family District permits single-family dwelling (detached) with a minimum lot size of 6,000 square feet and a minimum lot width of 50 feet, foster family home, public and private schools.

Proposed Zoning: “MF-33” Multi-Family District permits multi-family to a density of 33 units per acre.

**FISCAL IMPACT:**

None.

**PROXIMITY TO REGIONAL CENTER/PREMIUM TRANSIT CORRIDOR:**

The subject property is not located within a Regional Center but is within a ½ mile of a Premium Transit Corridor.

**RECOMMENDATION:**

**Staff Analysis and Recommendation:** Staff recommends Approval, pending Plan Amendment.

**Criteria for Review:** According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the San Antonio International Airport Vicinity Plan and is currently designated as “Neighborhood Commercial” in the future land use component of the plan. The requested “MF-33” base zoning district is not consistent with the future land use designation. The applicant has requested a Plan Amendment to “High Density Residential”. Staff and Planning Commission recommend Approval.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is consistent with the established development pattern of the surrounding area.

3. **Suitability as Presently Zoned:** The current “R-6” Residential Single-Family District is appropriate for the property and surrounding area. The proposed “MF-33” Multi-Family District is also appropriate. The property fronts a secondary arterial which is a street classification equipped to handle the ingress/egress of more intense land use. The “MF-33” Multi-Family District allows the use Assisted Living with seven (7) or more residents. There is an established single-family development behind the property, however, the proposed assisted living facility is an appropriate transition and buffer to the residential and the secondary arterial and commercial development to the north.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The request does not appear to conflict with any public policy objectives of the San Antonio International Airport Vicinity Plan:
  - Goal I: Protect the quality of life of residents including health, safety and welfare
    - Objective 1.1 Protect integrity of exiting residential neighborhoods and prevent excessive noise pollution and other airport hazards
    - Objective 1.2 Discourage developments of incompatible uses in the airport environs and noise exposure contours
  - Objective 2.2 Encourage commercial development that respects the integrity of existing residential development
6. **Size of Tract:** The subject property is 1.359 acres, which can reasonably accommodate the proposed development.
7. **Other Factors:** The applicant intends to rezone to “MF-33” to accommodate the development of an assisted living facility on the property. The maximum density allowed by the “MF-33” Multi-Family District on the 1.359 acres is approximately 45 units.
