BACKGROUND INFORMATION:

The City of San Antonio's fiscal year begins on October 1 and ends September 30. Each year, the City Manager transmits a budget development calendar to the City Council in February/March with key dates for each phase of the budget process. The phases include (1) City Council Budget Goal Setting Session, (2) Five-Year Financial Forecast and FY 2024 Trial Budget, (3) public input before the budget is prepared, (4) Proposed Budget for the upcoming fiscal year, (5) City Council budget worksessions, and public input meetings/public hearings on the proposed budget, and (6) adoption of the Budget for the next fiscal year. The Annual Operating and Capital Budget must be approved by the City Council not later than September 27th of every year in accordance with the City Charter. On February 8, 2023, the City Council was provided with the FY 2024 Budget Calendar. This calendar included the key dates for the six phases of the City of San Antonio budget development process.

City Council Budget Goal Setting Session: On April 13, 2023, the City Council FY 2024 Budget Goal Setting Session was held at the Henry B. Gonzalez Convention Center. The purpose of the Budget Goal Setting Session was to obtain City Council policy direction to guide the development of the upcoming fiscal year budget. Seven policy focus areas were identified by City Council during the session: 1) Property Tax Relief, 2) Animal Care Services, 3) Public Safety, 4) Strategic Housing Plan and Homeless Outreach, 5) Employee Compensation, 6) Infrastructure, and 7) Community Safety. City Council provided feedback that was utilized to prepare a FY 2024 Trial Budget and Five-Year Forecast that reflected the priorities of the City Council. A report of the results of the City Council Goal Setting Session is available in the City's Website.

Five Year Financial Forecast and FY 2024 Trial Budget: On May 10, 2023, City Council was provided a briefing on the City's Five-Year Financial Forecast covering Fiscal Year 2024 through Fiscal Year 2028 and the FY 2024 Trial Budget. The forecast is intended to provide the City Council and the community with an early financial outlook for the City of San Antonio and to identify significant issues that need to be addressed in the budget development process. The Five-Year Financial Forecast focused on the General Fund, Hotel Occupancy Tax, Development Services, and Solid Waste Management funds.

The Trial Budget was presented to the City Council for the General Fund. The Trial Budget is a step in the Budget Development Process that was introduced for the FY 2021 Budget Development Process as staff prepared alternatives to balance the budget in the midst of the COVID-19 pandemic for City Council consideration. The process was useful for the City Council and staff to deliberate on alternatives to balance the budget and the FY 2024 Budget Development Process continues with this practice.

The Trial Budget was developed based on input the City Council provided during the Goal Setting Session and reflected identified City Council priorities. It also provided City Council an opportunity to discuss potential improvements to the budget before the proposed budget was developed. The Trial Budget provided a two-year balanced plan for the General Fund.

Community Input for the Preparation of the Budget Process: After the FY 2024 Trial Budget, the City contracted with a third party vendor, the ETC Institute, Inc. to conduct a citywide, statistically valid budget survey. The City's survey was administered to a random sample of 1,141 San Antonio residents city-wide by mail, internet, and phone (mobile and landlines) and email in both English and Spanish. At least 100 surveys were completed in each of the City's 10 council districts. The results of the survey were presented to City Council on June 22, 2023.

The top five budget priorities from City residents aligned with the City Council priorities identified in April and May. The top five budget priorities included: Homeless Outreach and Encampment, Streets, Affordable Housing, Animal Care Services, and Police Services. Information regarding this survey can be found on the City Website.

Proposed Budget: On August 10, 2023 the City Manager will present the FY 2024 Proposed Operating and Capital Budget to City Council. This budget was prepared in the month of July and incorporates the policy direction provided by the City Council from the Goal Setting Session, Trial Budget Presentation, and the statistically valid community survey.

City Council Budget Worksessions, public input meetings/public hearings on the proposed budget: After the budget is proposed on August 10, 2023, twelve city council budget worksessions are scheduled to present the proposed budget in detail to the City Council.

Following the budget presentation, nine town halls will be held throughout the City between August 14 and August 24 to provide information to City residents about the proposed budget as well as obtain feedback. Additionally, the City will host two public hearings Wednesday, August 30 at 5:00 pm and Thursday, September 7 at 9:00 am in City Council Chambers.

Budget Adoption: The FY 2024 Budget is scheduled to be considered for approval by the City Council on September 14, 2023.
