List those goals you most want to accomplish immediately after graduating High School or within the next four years.	I want to be able to become more involved in my community, to help make a change that would better the city of San Antonio, help its residents, and allow it to fully embody the beauty and diversity that I always associate it with. I want to pursue my education in engineering, learning the tools I need to be successful in my career and fully foster my curiosity and interest in the fields of STEM.
Given the opportunity to influence a significant change in San Antonio, what youth-related issue would you address?	I would target the youth's involvement in the community. I believe that young San Antonians should be more involved in the community to strengthen their connections to their neighbors and others in the community. Including these new younger minds would greatly benefit the city by providing newer, progressive perspectives, and allow the younger generations to see the importance of this community, ensuring the preservation and strengthening of the connections in this great city.
What approach would you take? Who would you work with? Why this particular issue?	I would take the approach of creating events that utilize the help of teens and younger children to work with the community, aiding the people in our city. The importance of working with and bonding with members of the community over one uniform goal will foster the connection and interest in working with the community in the future, and they want to preserve the connections they have made. Furthermore, the impact of these events would benefit members of the community and the city and allow the teens to see the positive effect they created, pushing for a sense of accomplishment and responsibility which would push for more involvement. This is important because, in this new digital world, you can connect to people from all over the world, so it is much easier to neglect the community where you are. The involvement of the youth will revitalize the San Antonio community and ensure the longevity of our connections to each other and the city.
