<p>List those goals you most want to accomplish immediately after graduating High School or within the next four years.</p>	<p>The goal I want to accomplish after graduating High School is to attend a four-year college. While I am unsure of what I will study, I know that today I enjoy learning about anatomy and science and the human body. I also enjoy helping people and could envision myself doing something in the healthcare field after graduation. I also like to speak Spanish and definitely want to continue this in college and beyond.</p>
<p>Given the opportunity to influence a significant change in San Antonio, what youth-related issue would you address?</p>	<p>Knowing that the problem this year in the San Antonio Youth Commission is mental health, the youth related issue that I would love to address is social media</p>

and its effect on teens" body image and isolation, which both affect mental health. Teenagers are more anxious and have lower self-esteem in large part due to the ills of social media. Teenagers often compare themselves to models or bodybuilders on social media causing body dysmorphia which can have a significant negative impact on mental health. While the use of personal cellular phones has been advantageous to many, for teenagers, having that much access in the palm of their hands can also be very difficult. "When You Give a Teen a Phone" should be the title of the new book by Laura Numeroff, or as many know her for being the author of "If You Give a Mouse a Cookie". Teens can be cooped up all day on their phones rarely conversing with anyone. Teens can withdraw and become antisocial which can make them a worse student and start to fail classes. The problem may have started during the Covid Pandemic, but it continues today and given the opportunity, I would like to help by strategizing more positive phone usage among teenagers in San Antonio for positive intent.

<p>What approach would you take? Who would you work with? Why this particular issue?</p>	<p>The approach that I would take if I were to address this issue as part of the council representing District 9, would be finding more ways for teenagers to connect. For example, I would love to initiate a teen hour in various spots across the city that don't require technology to connect. Whether that be the library, or a park, I think that these free events could pull local teens off of screens and outside of their isolated worlds to converse and connect with other teens. I would like to educate youths about the ills of social media and phone usage in general to ensure that they understand that being on a phone can actually be a negative influence and can actually isolate them from their peers. I would like to work with local libraries and high schools and the larger school districts to create public service announcements and posters and media about social media and phone use. I would incorporate parents and guardians in the messaging as well to be sure that all are aware and open to finding alternative solutions.</p>
