Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:

Greetings. During my time of the PCTAC during the review of the proposed UDC amendments last year, I was intrigued by the many detailed and constructive amendments offered by OHP. I was especially interested in the idea of the Historic and Design Compliance and Technical Advisory Board (HDCTAB). Given the incredibly rich and varied historic built environment and landscapes in the City of San Antonio, the number of already-existing historic districts, and the steady increase in re-development pressures in many of these areas, I was thrilled to see this proactive approach to increase capacity, since the new board advises projects impacting historic properties and reviews compliance cases, policy documents, and historic design guidelines. As a preservationist, I was gratified to see San Antonio continue to adapt to changing preservation needs and to develop added nimbleness in responding to new opportunities. The PCTAC work for the UDC wound down last year, and my commitments to the CPS Energy Rate Advisory Committee appear to have wrapped up in the last week or so as well. I have been wanting to get more involved in preservation-focused activities to stay engaged in the nuts-

and-bolts issues of the review process, as well as be informed on emerging issues in preservation. On this latter point in particular, I have been deeply concerned to read of the recent court challenge regarding a modification denial by the historic preservation commission in San Marcos. While the subject matter of the denial is itself a challenging topic(), I was worried about the potential wide-reaching legal ramifications for public oversight of heritage resources. There has been another effort in recent years to handicap the ability of private landowners statewide to dedicate easements in perpetuity (whether for preservation of historic sites/structures or for conservation of open space/working lands/ecological niches outside of municipal boundaries). This is a matter close to my heart, since I wrote my masters thesis for my MHP on conservation easements. Also, especially given new legislation from Austin, I imagine that potential plaintiffs are being sought to frame a challenge to ordinances in San Antonio. I think I can be a useful member of the new board as it gears up. In addition, the developments mentioned above have compelled me to submit this application in hopes that, if selected, I might also be of some help in

	support of San Antonios dynamic municipal efforts to celebrate, maintain, and protect the remarkable built heritage.
Do you have any relatives who are employed with the San Antonio Police Department?	No
