Given the opportunity to influence a significant change in San Antonio, what youth-related issue would you address?	Obesity
What approach would you take? Who would you work with? Why this particular issue?	I would take the approach to get it out to high schools that we create fun activities for districts and all schools to participate in. I would work with other ambassadors of other schools to help spread the word and get people to participate. Healthy food is a lot more expensive than food that is not good for you, but staying inside on your technological device is also not good. If this can make a dent in the problem, hopefully it will create a ripple effect to not only help people get out to stay active but also create a little stop to technology and unhealthy habits.
