RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Denial.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located within the United Southwest Plan and is currently designated as "Low Density Residential" in the future land use component of the plan. The

requested "R-6" Residential base zoning district is consistent with the future land use designation.

2. **Adverse Impacts on Neighboring Lands:** Staff finds evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The proposed use is not consistent with the established development pattern of the surrounding area.
3. **Suitability as Presently Zoned:** The existing "R-6" Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed "R-6 CD" Residential Single-Family District with a Conditional Use for two (2) dwelling units is not an appropriate zoning for the property and surrounding area. The proposed two dwelling units is out of character with the surrounding larger lot single-family dwellings established in the area.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The proposed rezoning appear to conflict with the following goals, principles, and objectives of the United Southwest Communities Plan:
 - Goal 2: Housing-Encourage the development of new housing that is compatible with the community.
 - Objective 2.1: Develop New Housing, encourage single family development
 - Action Steps: 2.1.1 Attract residential development at Ray Ellison on Holm Road and support rezoning to single family at this location
 - Action Steps: 2.1.3 Encourage new residential construction to include two car garages and discourage the conversion of garages into living areas and discourage the conversion of mobile homes into houses.
6. **Size of Tract:** The 0.3048-acre site is of sufficient size to accommodate the proposed residential development.
7. **Other Factors:** The subject property is located within the Lackland AFB Awareness Zone/Military Influence Area. In accordance with the signed Memorandum of Understanding, JBSA was notified of the proposed request. The Military has indicated that there are no objections to the request.

The Conditional Use zoning procedure is designed to provide for a land use that is not permitted by the established zoning district, but due to individual site considerations or unique development requirements would be compatible with adjacent land uses under given conditions.

The applicant seeks to rezone to utilize the property for (2) dwelling units, which will conform with the zoning of the property if approved.
