APPLICABLE CITATIONS:

Unified Development Code Sec. 35-606. - Designation Process for Historic Landmarks.

- a. **Authority.** Requests for landmark designation may only be made by or with the concurrence of the property owner. In instances where a property owner does not consent to the landmark designation, the historic preservation officer shall request a resolution from city council to proceed with the designation process prior to any zoning commission hearing. Notwithstanding the foregoing, a request for landmark designation may be made and approved by the city council. To the extent that this subsection conflicts with any other provisions of this chapter, this paragraph shall control except for buildings, objects, sites, structures, or clusters heretofore designated as local landmarks or districts, National Register landmarks or districts, state historic landmarks or sites, or state archaeological landmarks or sites. Additionally, requests for designation shall be made on a form obtained from the city historic preservation officer through the office of historic preservation. Completed request forms shall be returned to the office of historic preservation for processing. All buildings, objects, sites, structures, or clusters heretofore designated by the city council as historic landmarks under any pre-existing ordinance of the City of San Antonio shall be accorded the protection of properties designated historic landmarks under this chapter and shall continue to bear the words "historic, exceptional" (HE) or "historic, significant" (HS) in their zoning designation.
- b. **Designation of Historic Landmarks.**
 1. **Initiation.** Any person, the historic and design review commission, zoning commission, the historic preservation officer, or the city council may initiate a historic landmark designation by filing an application with the historic preservation officer. Requests for designation shall be made on a form obtained from the city historic preservation officer. Completed request forms shall be returned to the office of historic preservation for processing. Owner consent for historic landmark designation shall be required unless a city council resolution to proceed with the designation has been approved. Additionally, owners may submit with the application a written description and photographs or other visual material of any buildings or structures that they wish to be considered for designation as non-contributing to the historic landmark.
 2. **Decision.** The historic preservation officer shall refer a completed application for historic landmark designation to the historic and design review commission. Property owners of proposed historic landmarks shall be notified of the historic and design review commission hearing by the historic preservation officer by mail prior to a historic and design review commission hearing for historic landmark designation. Notice to property owners shall state the place, date, time and purpose of the historic and design review commission hearing. The historic preservation officer shall also send notice of the meeting to any registered neighborhood associations located within the proposed district boundary. The historic and design review commission shall make and forward its recommendation to the zoning commission within forty-five (45) days from the date of submittal of the designation request by the historic preservation officer. Upon submittal of the historic and design review commission's recommendation, the proposed historic district or landmark designation shall be submitted to the zoning commission for its review recommendations along with its finding of historic significance. The zoning commission and the city council shall process the application as prescribed in [section 35-421](#) of this chapter and this section. The zoning commission shall schedule a hearing on

the historic and design review commission recommendation to be held within sixty (60) days of receipt of such recommendation and shall forward its recommendation to city council which shall schedule a hearing to be held within sixty (60) days of council's receipt of such recommendation. Upon passage of any ordinance designating a historic landmark, or removing or upgrading the designation of historic, the city clerk shall send notice of the fact by mail to the owner or owners of affected property.

Unified Development Code Sec. 35-607. – Designation Criteria for Historic Districts and Landmarks.

- a. **Process for Considering Designation of Historic Districts and Landmarks.** Historic districts and landmarks shall be evaluated for designation using the criteria listed in subsection (b) and the criteria applied to evaluate properties for inclusion in the National Register. In order to be eligible for historic landmark designation, properties shall meet at least three (3) of the criteria listed. Historic districts shall consist of at least two (2) or more structures within a legally defined boundary that meet at least three (3) of the criteria. Additionally, all designated landmarks and districts shall demonstrate clear delineation of the legal boundaries of such designated resources.
- b. Criteria for Evaluation.
 - 3. **Its identification with a person or persons who significantly contributed to the development of the community, county, state, or nation;**
 - 5. **Its embodiment of distinguishing characteristics of an architectural style valuable for the study of a period, type, method of construction, or use of indigenous materials;**
 - 13. **It bears an important and significant relationship to other distinctive structures, sites, or areas, either as an important collection of properties or architectural style or craftsmanship with few intrusions, or by contributing to the overall character of the area according to the plan based on architectural, historic or cultural motif.**

FINDINGS:

- a. The request for landmark designation was initiated by the property owners.
- b. **HISTORIC CONTEXT:** The property at 1012 W Mulberry Ave is a single-story Craftsman residence with Tudor influence built in 1922 for George and Beulah Delevan. It is located in the Beacon Hill Area neighborhood conservation district (NCD-5) of City Council District 1. Eduardo and Marie Reyna currently own the property. George W. Delavan Sr. was a prominent real estate developer in San Antonio who originally platted and developed the neighborhood of Dellview, among others. His company continued to develop up to 5,000 lots in various subdivisions including Woodlawn Heights, Lackland Terrace, Dell Wood Park, and Dell Wood Manor. George Sr. was also very active in the community, including as a member of the San Antonio Planning Commission and as one of five land donors to the Medical Center Complex. George Delavan Jr. followed in his father's footsteps and went on to become a prominent San Antonio real estate developer as well, including developing Castle Hills Estates and Elm Creek, and building the first air-conditioned indoor shopping center, North Town Plaza. The property is located in Beacon Hill, a neighborhood conservation district. Beacon Hill was developed starting in the early 1900s and was marketed as the "Original Queen Suburb" of San Antonio.
- c. **SITE CONTEXT:** The north-facing property is located on a block bound to the north by W Mulberry Ave, the east by Grant Ave, the south by W Huisache, and the west by Michigan Ave. The block has a divorced sidewalk with concrete paths running from the street, across the sidewalk, and to the front door of each home. Driveways are predominately ribbon, and most houses have detached structures at the rear of the parcel. Setbacks are deep and appear to stretch between 11 and 20 feet from the right-of-way.
- d. **ARCHITECTURAL DESCRIPTION:** The property features a front porch common in Craftsman bungalows, original solid wood front door and hardware, several original doors including two sets of original French doors on two sides of the front porch, and original double-hung wood windows with weight/pulley systems around the entire house. The property includes Tudor Revival influences including a prominent stucco front chimney with tile details at the top, as well as an eyebrow dormer over the front door.
- e. **EVALUATION:** In order to be eligible for historic landmark designation, properties shall meet at least three (3) of the 16 criteria listed. Staff evaluated the structure against all 16 criteria and determined that it was consistent with UDC sec. 35-607(b):
 - 3. **Its identification with a person or persons who significantly contributed to the development of the community, county, state, or nation;** 1012 W Mulberry Ave was built for real estate developer George

Delevan Sr, who developed the Dellview neighborhood and properties in Woodlawn Heights, Lackland Terrace, Dell Wood Park, and Dell Wood Manor.

- 5. Its embodiment of distinguishing characteristics of an architectural style valuable for the study of a period, type, method of construction, or use of indigenous materials;** the house is an example of a Craftsman residence with Tudor influence that retains character-defining features of both styles, such a prominent stucco front chimney with tile details at the top and an eyebrow dormer over the front door.
 - 13. It bears an important and significant relationship to other distinctive structures, sites, or areas, either as an important collection of properties or architectural style or craftsmanship with few intrusions, or by contributing to the overall character of the area according to the plan based on architectural, historic or cultural motif;** the property is located in the Beacon Hill Area neighborhood conservation district (NCD-5), which staff identified as an eligible local historic district. Should the neighborhood choose to pursue designation, the property would be considered contributing.
- f. The City offers a tax incentive for the substantial rehabilitation of historic properties because historic landmarks possess cultural and historical value and contribute to the overall quality and character of the City and its neighborhoods. If historic designation is approved, rehabilitation and restoration work may be eligible for this incentive. State and Federal tax incentives are also available for properties listed on the National Register of Historic Places and provide substantial relief for rehabilitation projects.
 - g. If the HDRC approves the Finding of Historic Significance, then the recommendation for designation is submitted to the zoning commission. The zoning commission will schedule a hearing and then forward its recommendation to the City Council. City Council has the ultimate authority to approve the historic designation zoning overlay.
 - h. Per UDC Sec. 35-453, once the commission makes a recommendation for designation, property owners must receive a written approval (a Certificate of Appropriateness) for any exterior work until the City Council makes their final decision.

RECOMMENDATION:

Staff recommends approval of a finding of historic significance and that the Historic and Design Review Commission should recommend approval for the landmark designation of 1012 W Mulberry Ave to the Zoning Commission and to the City Council based on findings a through e.

Statement of Significance

1012 W. Mulberry Ave.

I. Architectural History

1012 W. Mulberry Avenue (“Property”) is currently a 3-bedroom, 2-bath Craftsman Bungalow with Tudor Revival influences. The Property was originally built as a 2-bedroom 1-bath with a front and back porch, but at some point during the Property’s history, the back porch was enclosed to create a third bedroom, and the bathroom was split to create two bathrooms (a master and a guest bath). The Property features a front porch common in craftsman bungalows, original solid wood front door and hardware (knobs, hinges etc.), original built-in dining room cabinetry, several original interior doors including 2 sets of original French doors on 2 sides of the front porch, original double-hung wood windows with weight/pulley systems around the entire house, original wood floors throughout most of the house, and original crown molding and base molding in many parts of the house. The Property includes Tudor Revival influences including a prominent stucco front chimney with tile details at the top, as well as an “eyebrow” feature over the front door.

II. Property History

The Property was built in the summer of 1922 and will therefore celebrate its century mark this summer 2022. The original owners George Washington Delavan Sr. and his wife Beulah Roberts Delavan purchased the land in early June 1922.¹ The home was subsequently built between June 1922 and August 1922 as evidenced by a permit to build notice in the local newspaper dated June 15, 1922², and a “social notice” in the local newspaper dated August 23, 1922 advising that “*Mr. and Mrs. G. W. Delavan entertained in their attractive new home in West Mulberry Avenue Friday with a bunco party.*”³ Further details about the original owners of the Property can be found in Section III(A) below.

Based upon research, it appears the Delavans lived in the Property with their two children, Connie and George Jr.,⁴ until the Property was transferred to Mildred R.

Maples in May 1938.⁵ The assumption is that George Sr. and Beulah divorced at some point in the 30s, as evidenced by (1) a quitclaim deed from Beulah to George Sr., (2) Beulah and George having separate address locations in subsequent city directories, and (3) the “divorced” marital status on George Sr.’s death certificate.⁶

Based on city directory research, it appears Ms. Maples did not reside in the Property but rented to various parties, including Mr. and Mrs. Edward Hays and Pearl Jane Rutledge, who resided in the Property until the early 1950s.⁷

On September 21, 1965, Ms. Maples transferred the Property to Mr. and Mrs. Victor S. and Maria de Lourdes (Mary Lou) Martinez.⁸ The Martinezes were married 40 years and raised their family, including their four children (Martha Lou, Victor, Rose, and Ernest) in the Property until their deaths.⁹ Upon Mr. Martinez’s death in 2003, the Property was passed to two of his children, Martha and Ernest, each with a ½ undivided interest. Martha transferred her half interest to Ernest¹⁰ who resided in the Property until his death in May 2013.¹¹ Upon Ernest’s death, the Property was put in trust and eventually sold in March 2015 to what is commonly referred to nowadays as a property “flipper”, Ms. Paige Craig.¹² Ms. Craig’s team restored and updated the Property, keeping many of its original features as described in Section I above and as seen in the pictures submitted.

We, the current owners, Mr. and Mrs. Eduardo Felipe Reyna II and Marie H. Reyna, purchased the home from Ms. Craig on April 25, 2016,¹³ and consider this to be our forever home.

HELP
15 MILES OF
KIDNEY TUBES

To Flush out Acids and Other Poisonous Waste
Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify blood and keep you healthy. Most people pass about 3 pints of urine or about 3 pounds of waste. Frequent or scanty passages with smarting and burning show there may be something wrong with your kidneys or bladder. An excess of acids in the blood, which is the beginning of kidney disorders, may be due to functional kidney disorders, but can be relieved by the use of Doan's Kidney Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Kidney Pills.

Court Clerk Helps Sheriff Find Accused Man

All considered, it was an unwise decision that prompted A. Cobb of 312 Navarro Street to visit the County Court at Law No. 1 Thursday afternoon. For at the conclusion of a swift succession of events, he found himself locked in the Bexar County jail.

Late in the afternoon he strolled into the office where J. Louis Quintanilla, court clerk, receives complaints, keeps his files. Quintanilla was busy with another person and Cobb began rummaging in the files.

"Say, what are you doing there?" demanded Quintanilla, exasperated. "Well, I've got a case in here, and I just wanted to find the complaint," explained Cobb.

"You just wait till I get through here, and I'll find it for you," the clerk told the short, grayed and stocky visitor.

Quintanilla found the file, the case, the jacket and peered within. It was a charge of soliciting insurance without a license, filed July 1, 1935. There was a notation on it: "No arrest made, unable to find defendant."

"Are you A. Cobb?" the court clerk asked, reaching for a telephone. Receiving an affirmative reply, he raised the receiver, phoned the sheriff's office and asked for a deputy.

Cobb's case lost its importance. He started out. Quintanilla followed. Out in the corridor, Dick Knight, deputy sheriff, met the pair.

Downstairs in the sheriff's office Knight turned the man over to Houston Minor, another deputy sheriff, who mumbled "Com'on, boyner, you're goin' to jail." Cobb followed.

His case has been set for Dec. 15.

BANDIT HITS MAN
WITH CLEAVER

Grocery Clerk Found in Store Half Hour Later

Walter McDonald, clerk in Mrs. R. P. King's grocery at 501 North Cherry Street, is in a serious condition in Santa Rosa Hospital, as a result of having been knocked over by a negro bandit wielding a meat cleaver, about 3 p. m. Thursday.

McDonald, knocked unconscious, lay a great deal of blood before he was discovered by another visitor in the store. Police estimated he lay on the floor of the store 30 to 45 minutes. The cash register had lost \$3 or \$4.

After regaining consciousness, McDonald told officers a tall, slender negro came into the store and asked for 15 cents worth of ground meat, and then for a pound of potatoes. When McDonald stooped over to sack the potatoes, he was struck on the back of the head with a meat cleaver.

The pursuit section flew to Fort Clark and Prio Town. No instructor accompanied the six planes and six students, but Lieut. Jerald J. McCoy was in charge of operations.

LIFE IN MEXICO
SHOWN BY FILMS

Former Aerial Photographer Takes Spectators Off Beaten Path

Mexico is the color-picture man's paradise, according to pictures shown to a crowd of 750 in the auditorium of Express Publishing Company Building Thursday night by Ralph E. Gray, former soldier, who has traveled extensively in Mexico filming the pictures.

The pictures showed more of the life of rumbles and villagers than of the scenes along the Pan-American Highway. Bullfights and rodeo shared reels with Cuernavaca carnival, with its weird caricatures, plaza action and color.

Tropical Tehuantepec and Taxco received attention commensurate with that of Cholula, the city of churches.

One of the impressive reels was that of the Pilgrimage to Chalma, and its Indian ceremonials exhibiting head-dresses larger and more elaborate than that of historic Indians of the United States.

"Agassess Oaxaca" showed the primitive head transportation, traditional oxen beasts of burden, pack-donkey transportation, and almost exclusive hand power in the manufacture of pottery, serapes and other textile specialties.

Gray's experience as an aerial photographer during the World War came in handy in the filming of natives climbing tall, slick trees, cutting fruits from the fringe of palm at the top, or in filming "tree houses."

He has shown the pictures to natives, also in Charleston, S. C., New York and Washington, D. C., including the Mexican embassy.

THRONGS ATTEND
JOSKE OPEN HOUSE

Gala Open House Offers Diverse Attractions

Joske Brothers Department Store was as crowded Wednesday between 7:30 and 9 p. m. as during the busiest hours of the day, though not a dime's worth of merchandise was sold.

The occasion was the annual Open House and Christmas Party staged by the store. The store had closed for sales at 6 p. m. and reopened at 7:30 when it played host to all those who wished to visit and be entertained.

There was entertainment aplenty ranging from music by Eduardo Martinez and his International Orchestra to the activities of a silhouette artist. Every floor had its own special points of interest and many persons found themselves torn between widely diverse impulses.

Joske's Christmas choir offered a series of numbers. There were children's shows on both the second and third floors, presented by the Earle Cobb and Bonner schools of dancing. There was a fashion parade by living models on the third floor. Popeye and his arctic ice pond were on display while Santa Claus greeted the children in the basement.

Sculptors modeled art work, oil paintings were shown. Boy Scouts demonstrated first aid work and dozens of other activities attracted throngs all during the open house.

Response was considered more than gratifying.

Fires Put Out While You Wait

Special to The Light
HONDO, Nov. 8.—Hondo's volunteer fire department was paid a high compliment this week. Their excellence in putting out fires is getting around. They are getting fires shipped in by rail to be extinguished. That's the way it happened. A carload of sulphur caught fire a few miles out of town, and when the train got to Hondo the fire department came over and put out the blaze.

Train, Engine Crash, 4 Hurt

BROWNWOOD, Nov. 7.—(AP)—Four engine crewmen were injured today when a Temple-bound Santa Fe train and engine en route to Brownwood collided and overturned just north of the roundhouse yards. Both trains were headed in the same direction. The collision occurred as one engine pulled into the main line.

Mauricio May Go Free

Efforts of various city and county law-enforcement officers to secure the extradition from California of Jesse Mauricio came to an abrupt and negative halt Saturday.

Through lack of county or state funds, the proposed trip of City Detective R. A. Benfer, Deputy Sheriff Oscar Warnke and E. A. Naranjo, justice of the peace court clerk, to California for Mauricio was canceled.

Mauricio, indicted in Bexar county for the August, 1946, knife murder of Riley Adair Jr., has been held in the Los Angeles jail since his arrest following his discharge from the navy Oct. 13. But, officers explained Saturday, he can be held there no longer than 30 days and probably will be released Nov. 14.

Mauricio had signed a waiver of extradition and Gov. Jester had signed extradition papers.

\$100 WITHDRAWN
Police Commissioner Raymond South and Police Chief Fred Palmer, hitting at what they called lack of co-operation by county officials, withdrew an offer of \$100 which was to have been used to defray part of the expenses of any officers sent to Los Angeles.

Previously County Auditor Edgar Garvey had notified the district attorney's and sheriff's offices the county had no money to pay expenses of officers sent to return Mauricio.

The three scheduled to go to Los Angeles said they could not pay all expenses of the trip from their own pockets.

A 'CRYING SHAME'
Palmer said Saturday the lack of funds and co-operation was a "crying shame" and added he believed nothing could be done except telegraph Los Angeles officers to free Mauricio Nov. 14. District Attorney William N. Hensley said he could send no one to California because his office is limited to handling the "mechanics of the case."

Drops Deep--Lives!

LONDON, Nov. 8.—(P)—Patrick Hayes, a lobster fisherman, was reported today to have miraculously survived after 15 minutes entangled in his gear fathoms deep under the ocean.

London newspapers said that Hayes was laying lobster pots when he was dragged overboard. Screaming and struggling frantically, he was pulled beneath the surface.

The boat captain began hauling in the heavily-weighted pots but it was 15 minutes before Hayes was brought to the surface, nearly dead.

Dugged efforts by the crew to revive Hayes by artificial respiration eventually were successful.

SEEKS REVIVAL OF CCC.
WASHINGTON, Nov. 8.—(INS)—Sen. Stewart (D-Tenn.) said today he will seek creation of another civilian conservation corps—perhaps as a part of the proposed universal military training program—to replant the nation's devastated forest areas.

each announced plans to build subdivisions of 100-200 homes in all parts of the city, including Highland Hills, University Park, and Jefferson Village. In 1949, Lee and Orts, who were finishing 25 houses in University Park, announced plans for a 25 acre subdivision at the corner of Basse Road and West Avenue that would include 100 cottages to sell for \$5,800 to \$6,000 and a community center.

In 1949, two new subdivisions were platted north of Basse Road - West Avenue Place by Quincy Lee of Lee and Orts contractors, and the Wonder Homes Addition by Alvin B. Berler. By 1950, more subdivisions were recorded. Aaron Golden, owner of Wonder Homes, Inc, developed Jackson Terrace. Allena Village, platted by Albert Hirschfeld (1893- 1972), an insurance, real estate and investment agent, included a shopping center on Blanco Road and triangular park at Olympia. Hirschfeld, who came to San Antonio in 1914, was a noted business and civic leader, and served as president of the Witte Museum. Fred W. Davis, loan manager of Southwestern Investments, platted the Brook Haven Heights Addition in 1950, and the Crestwood Heights Addition in 1952. J. Walker Haymore of Southland Mortgage Co. platted Greenhill Village in 1955.

Wonder Homes and Allena Village Plats

Dell-View Addition Plats

The fields and dairy barns of George Delavan became one of San Antonio's fast growing subdivisions. Between 1951 and 1955, the Dell-View Addition, units 1-13, was platted by George W. Delavan, Sr. (b. 1892- d. 1982) of Dell Village, Inc. These tracts included a 3.3-acre park and 2-acre church site on Panda and Basswood and a 7-acre school site on Latch and Panda. To accommodate the expansion of the Dell-View Addition, the City of Balcones Heights, incorporated in 1948, de-annexed 20 acres to the City of San Antonio along Dewhurst Road to the east. Area landmarks such as the Storey Wood Rodeo Arena, gave way to the residential construction boom. The Delavan Company continued to develop up to 5,000 lots in San Antonio's subdivisions

including Woodlawn Heights, Lackland Terrace, Dell Wood Park, and Dell Wood Manor. Active in civic affairs, George Delavan was a member of the San Antonio Planning Commission, and one of five land donors to the Southwest Medical Complex.

The residential develop pattern of these mid 20th century subdivisions typically consisted of a street grid with 20 to 30 lots per block divided by at 15' wide rear alley. South of Basse residential lot dimensions were generally 50' x 125'. North of Basse, lot sizes ranged from 60-65' x 110-120'. Small curvilinear avenues or boulevards with planted medians, for example, Wonder Parkway, followed contours of the terrain and connected the neighborhoods to the major corridors.

San Antonio ads promoted "Homes Built for your Budget," "New Wonder Homes," "Homes For Happiness," and "Veterans not a Dime to Move In." A 1953 promotion for "Dellview Best Buys" described a 3 bedroom home with "beautiful Austin stone overlooking the city, a combination living room and dining room, breakfast space with large kitchen, custom built cabinets, all tile bath, knotty pine den with closet, a centrally located heater, and an attached garage."

Home prices ranged from \$8,000 for two-bedroom homes to \$16,000 for three-bedroom homes with exteriors designed with "quality workmanship and material." Other amenities such as "music in every room, food waste disposers, screened porches, aluminum windows, Venetian blinds, washing machine connections, spacious baths and closets and kitchens with Formica tops" were geared for convenience and comfort.

Many homes in San Antonio built between 1935 and 1950 were a Minimal Traditional style. The one-story cottages were small and lacked decorative detailing. Popularized by California builders in the 1940s, one-story Rambling Ranch homes had low-pitched roofs with a wide eave overhang, and exhibited little detailing except for a large picture window. The Parkettes do a great job of handing out tickets. They do not favor newspaper people and others who used to get special parking breaks from the city.

Last week there were two Parkettes outside the Express-News Bldg., one hanging tickets on cars along Ave. E. the other working Third St. This didn't last too long, but when it was over not many cars in the block were unfettered.

The next day, and each day thereafter, plenty of meter space was available to conscientious scribbles ready to pay their parking nickel and rush out of the building every hour to freshen their meters.

As a result of Parkette activity, more newspaper workers rent space in parking lots, city revenue goes up and downtown drivers needn't hunt so hard for meter space, at least around the Express-News Bldg.

Councilmen Talk

Mayor Ed Kuykendall and Mayor Pro Tem Elmer Crammer will lead the discussion on Sunday's For and Against program over KENS-TV.

Since no one at the moment has anything against this city administration, the half-hour show will go into "for" stuff, largely the accomplishments of councilmen since taking over about a year ago.

Councilmen Jack Daniels and Joe Olivares also are due to appear at 3:30 p.m. Selection of panelists was purely at random.

More Cadets Sought

Police Chief George Bichel wants it known that another police exam will take place June 13. Its aim: To put a total 125 men on the force by July.

To help out would-be officers, Bichel has set "get-acquainted" tours of police headquarters from 7 to 11 p.m., May 12. That's a Saturday night, and if the tour works out, repeat performances will be held the next two Saturdays at similar hours.

Chief Bichel said he looks for full strength of 125 men at the next review of applicants are approved in the same ratio as the last one.

METHODISTS SELECT SITE OF HOSPITAL

(See Picture Page 12A)

The San Antonio Medical Foundation has formally accepted a 200-acre site between Fredericksburg and Babcock roads for establishment of a long-sought San Antonio Medical Center, Leslie R. Neal, president of the San Antonio Chamber of Commerce announced Saturday.

Committed to donate the property are four real estate developers — George W. Delavan Sr., G. S. McClellan, Edgar von Scheele and Carl Gaskin Jr., Neal said.

The developers credited Leland S. Austin, vice chairman of the Southwest Texas Methodist Hospital Board, as the "man who sold us on the idea."

Location Approved
The Methodist Hospital Board has approved the location for a \$5,500,000 hospital which it plans to build with federal government assistance.

The site, which will be located by a master planner between the two highways and immediately north of the Oak Hills Country Club property, has also been approved by the Bexar County Medical Society and the Chamber of Commerce.

Created by the Chamber of Commerce, the medical foundation came into being in 1945 as a nonprofit organization designed to establish a medical center in the city of San Antonio.

Its trustees include Mrs. Edgar Tohin, Melrose Holmgren, A. J. Lewis, Leroy G. Denman Jr., Albert Steves III, Tom Frost Jr., John M. Bennett Jr. and Tom Slick.

In finally accepting the site, Lewis, chairman of the foundation, declared:

"At last we have something tangible upon which to start to build a great medical center for San Antonio and Southwest Texas. The foundation is deeply grateful to Messrs. Gaskin, von Scheele, McClellan and Delavan for their generous commitment."

Location 'Ideal'
He praised the public health and hospital committees of the chamber of commerce for their work in dramatizing the need for additional hospital facilities in San Antonio and in studying all the possible locations for a medical center.

The chamber president said the Methodist Church and the real estate developers were due full recognition for the prominent roles they played in bringing the issue of a San Antonio medical center to a successful climax.

Speaking for the developers, Austin said:

"Only a few minutes drive from the city's downtown business section, the land is high and hilly and will provide an ideal location for the medical center which our city so desperately needs."

The four donors will determine the exact topographical location after conferences with a master planner, in order to utilize available acreage to the best advantage.

Random Carter, chairman of the Methodist Hospital Board, marked the formal designation of a site and the proposed Methodist Hospital as "the first step in an important series of steps which will establish a major medical center for San Antonio."

Ike Gets Another 'Good Health' Bill

WASHINGTON, May 12 (AP)—which Eisenhower was taken after Prestolig, Eisenhower's doctors, his Sept. 24 heart attack.

The report said Eisenhower's blood pressure is normal and that there are no signs of muscle weakness or angina in the heart.

The President has shown good tolerance to increasing physical activity over the past six months and since he departed Fitzsimmons hospital, the report said. This referred to the Denver hospital in 1955.

The doctors said X-rays show no changes in the President's lungs and no changes in the shape or size of the heart compared with films dating from 1946.

The fluoroscopic examination of the heart showed a normal rate and rhythm, the report said.

It added that the healed scar from the heart attack shows no sign of enlargement or bulging.

The White House made the report public shortly after the President, smiling broadly and in high spirits, left the hospital for Burning Tree Golf Club where he played a round of golf.

AUSTIN MAN TO ASK NEW DEMO HEADS

By JON FORD

AUSTIN, May 12—A state liberal leader confirmed Saturday that he will "pose action at the state Democratic executive convention May 22 which may result in ouster of the present state Democratic executive committee."

Creekmore Fath, Austin attorney and veteran of many convention battles, said he will offer a resolution designed to bid all committee members to a pledge of loyalty to support the party's presidential nominee. Those who refuse, under Fath's proposal would face immediate removal.

Revenge Charged
State Executive Committee chairman George W. Sandlin charged the Fath plan was motivated by "vindictiveness . . . a tremendous desire for power and revenge." Sandlin said the present conservative committee has, until Sept. 11 to serve under state statutes.

Fath supported Sen. Lydon B. Johnson's overwhelming victory in the precinct and county convention drive over Gov. Allan Shivers. Almost all of the 66 members of the executive committee supported Shivers. Many joined him in his bid to support the Republican nominee in 1952.

Johnson's Austin headquarters said there was no information available locally as to the senators' stand on the Fath proposal. Johnson said at a press conference last week he did not favor "recrimination and revenge" against the Shivers forces.

Fath pushed through the Travis County convention Tuesday a resolution to exact a loyalty pledge of the county chairman and committee members on penalty of replacement by May 27.

Under state law, the state committee is not due to be replaced until the second state elections this year — Sept. 11.

Fath insists, however, that under state Supreme Court rulings the May 22 convention at Dallas would have full authority to remove any committee member who fails to meet standards set by delegates. He said the law setting out two-year terms for committee members is silent on procedure for removals, leaving that up to party conventions.

Fireworks Seen
The Fath proposal seemed certain to set off fireworks at a convention which previously had seemed to be headed for a quiet session, due to the overwhelming margin of the Johnson victory.

Fath said the issue was "a matter of principle" and that a party had every right to set standards for its office holders. He stated the resolution proposed to bind committee members to support Democratic nominees as long as they hold party offices, which he considers a "reasonable" requirement.

Shivers forces campaigned in the precinct convention drive on the issue of their historic refusal to sign a pledge of loyalty to a nominee until they know who the nominee is.

FLINT, Mich., May 12 (AP)—Death-dealing, home-wrecking tornadoes battered much of southern Michigan late today and tonight. Upwards of half a dozen struck in the populous industrial and residential areas.

At least four persons were killed and more than 100 injured.

Two of the dead were from a single family in Flint, where a terrifying twister killed four as it bounced along a seven-mile path through the eastern outskirts.

An elderly woman was killed near Ithaca, 30 miles northwest of Flint, when a barn toppled on her. One unconfirmed death was reported in Grand Blanc, a Flint suburb.

Flint counted at least 80 injured. The Detroit suburbs of Lincoln Park and Allen Park had more than a score hurt. A scattering of injuries also were reported elsewhere in southeastern Michigan.

Windstorms and near-cloudbursts appeared the general rule for areas hit by twisters.

Today's tornadoes came only five weeks behind a series of twisters that killed 17 in western Michigan the night of April 11.

Flint, which was hit by three separate tornadoes, was bloodied and battered by the worst twister in Michigan history June 8, 1953, when 115 were killed.

ESTES JUST THOUGHT HE WAS FLYING

CHOWCHILLA, Calif., May 12 (AP)—An automobile carrying Sen. Estes Kefauver was stopped today a few miles north of Chowchilla and the driver was cited for speeding.

"Maybe if I slow you down a little you'll get where you're going," Highway Patrolman Robert Horton told the Democratic presidential candidate.

Horton said that Mrs. Marion Kent of San Mateo, the driver, was going 95 miles an hour.

A little lecture on highway safety and recommended that he slow down.

"We will," answered the Senator. "It was my fault."

The patrolman said he had no choice but to give a ticket to the driver.

Aggie Probation Ordered Lifted

FAYETTEVILLE, Ark., May 12 (AP)—Texas Tech, a college of 7,154 enrollment located in the West Texas plains country, today was voted into the Southwest Conference.

The invitation, extended by unanimous vote of the seven members of the conference, attained for Tech a goal it has sought for 30 years.

The conference announced that it had invited Tech to make it an eight-school league as soon as satisfactory arrangements of details can be worked out by committees from the conference and from Texas Tech.

Here to be welcomed into the conference were William Davis, chairman of the athletic council of Texas Tech, and big, gray-haired DWitt Weaver, athletic director of Tech. Weaver has put his energy into obtaining admission into the Southwest Conference since going to Tech, a Border Conference school, in 1951.

Probation Lifted
Overshadowed by the action on Tech by the Faculty Athletic Committee, governing body of the conference, was the lifting of a probation of one year from Texas A&M. The Aggies were penalized in 1955 for violating conference recruiting rules. The lifting of the probation also was announced as unanimous action.

At the same time, the conference recommended that the NCA review its action of May 1 when it also placed A&M on a one-year probation.

It wasn't known exactly when Texas Tech will become an official member of the conference. First steps will be taken next Sunday at Dallas when a committee from the conference meets with a committee from Texas Tech to explore preliminary steps. Dr. E. D. Munson of Southern Methodist, president of the conference; Dr. Henry Harts of Texas Christian, and Dr. H. E. Bray of Rice will represent the conference. Athletic Directors John Burroughs of Arkansas and D. X. Bible of Texas will sit in as consulting members.

Five-Year Deal
Howard Grubbs, executive secretary of the conference, said it was possible that Tech could begin competition in conference sports next spring. But it will be impossible for Tech to schedule football games with all conference members before 1961, he said, because several schools have commitments until that time.

In order to insure that Texas Tech can become a football com-

petitor by 1961, the conference instructed athletic directors to make no further commitments for 1961 or subsequent football seasons until further notice by the conference.

University of Houston also had been submitted for membership but a motion to invite the school into the league died for want of a second. The same thing happened to Houston's bid last December.

Rice Opposed
Grubbs would not reveal if there had been any vote other than the one that drew a unanimous ballot. Rice was known to be opposed to admission of Tech and Arkansas would not say what its intentions were. Rice, Arkansas and Southern Methodist voted against Tech last December. Since then, Southern Methodist announced that it was changing its vote.

Ohio Storm Fatal to 5

CLEVELAND, May 12 (AP)—Five persons were killed and at least 24 injured when a severe wind and rain storm hit greater Cleveland late tonight. Winds, which reached a velocity of 70 miles an hour, caused widespread property damage.

Three persons were killed and severely injured when a tavern was blown down on the city's southwest side. They were not identified immediately.

Frank Marzullo, 51, of suburban Lakewood and an unidentified man were killed when they came into contact with power lines felled by the wind.

Re: The historic designation request for 1012 W. Mulberry Ave. This is a great example of a building that has served the neighborhood well and has been treated with respect. It retains many of its architectural and decorative traits. I recommend the local landmark designation of this house.
