Contract Summary Sheet

Date: 12/9/2021
Agenda Item: 21-3915

Name/Title (Caption as shown on agenda): Annual Contract for Feline and Canine Biologicals 6100013403 VF	
Brief Description of Item(s) and Use: This contract will provide a variety of feline and canine biologicals as well as flea/tick preventions to benefit animals served by Animal Care Services (ACS). As a municipally-owned animal shelter, ACS operates under an open-admission system, caring for approximately 30,000 animals per year. These products prevent the spread of communicable disease as well as zoonotic diseases such as rabies that can not only place citizens at risk of contracting the disease, but also pose a direct threat to their life, both from the disease and the animal carrying the disease. Based upon the department's experience, the Merck products have been proven effective against the spread of disease. These biologicals and prevention medications from Merck will ensure ACS animals entering the ACS facility are properly vaccinated and protected from disease.	
Total \$:	\$203,000.00 annually
Contract Period:	Upon award through December 31, 2024 with two, one-year renewal options
Method of Procurement:	Public Health and Safety Exemption
Price Trend:	1.91% increase due to increase in manufacturing costs
Contract Info:	Formal <input type="checkbox"/> Annual <input checked="" type="checkbox"/> Support/Maintenance <input type="checkbox"/> Lease <input type="checkbox"/>
Recommended Contractor(s):	Intervet, Inc., dba Merck Animal Health, 10488 S. 136 th St., Omaha, NE 68138
Previous Contractor(s):	Intervet, Inc., dba Merck Animal Health, 2000 Galloping Hill Rd., Kinilworth, NJ 07033
Comments:	N/A
Anticipated Future Requirements and Action:	N/A
Procurement Alternative:	Should this contract not be approved, requirements for feline and canine biologicals would be procured by the Animal Care Services Department as needed. Establishing a requirements supply contract will allow the Department to realize cost savings by aggregating long-term demands and reduce the administrative costs associated with soliciting small, repetitive, and frequent purchases.
Using Department (s):	Animal Care Services
