<p>Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:</p>	<p>While I have only lived in San Antonio for three years, I have come to know the city well and really appreciate it. There is a great culture and strong community here. I have a unique experience with the city due to my job where I was able to learn about SA through the built environment. San Antonio is so rich with history, I find it so interesting to learn about the way the city was born and has grown. I also think I arrived at just the right time because so many plans have been in the works for years and there are so many projects just getting started or finishing up and I really enjoy watching the construction and transformations. I am seeking appointment to this commission because I'd like to share my perspective and gain new skills. I have a lot of interest in land development and would like to understand it from another perspective. I have a good understanding of zoning ordinances and the basics behind city planning. I am analytic, organized and prepared. I love to learn and I would welcome the opportunity to have a better understanding of issues facing the community, and of local ordinances and laws. I learned about the San Antonio master plan through the Urban Land Institute and I find it amazing how everything has to work together to guide future growth of the city. San Antonio is one of the fastest growing areas and the city needs a good vision in order to ensure long term success and high quality of life for current and future residents. I want to help shape the places we live, work, and play. There is so much opportunity in San Antonio and we must be careful to make sure our growth is sustainable and maintains the history and culture here. Even though I am still kind of new to the city, I am passionate about San Antonio. This is a great city and I'm not surprised so many people want to move here. I want to use my knowledge and experience in commercial real estate to get involved and help guide the growth of San Antonio.</p>
