Agenda Date: June 20, 2023

In Control: Airport Advisory Commission Meeting

DEPARTMENT: Aviation Department

DEPARTMENT HEAD: Jesus H. Saenz Jr.

COUNCIL DISTRICTS IMPACTED: Citywide

SUBJECT:

Terminal A Ground Loading Facility Project

SUMMARY:

On May 18, 2023, City Council authorized the City Manager or designee to negotiate and execute a Design-Build services contract with Hensel Phelps Construction Co. for the new Terminal A Ground Loading Facility and Relocation of Vehicle Gate 20 project which accepts the additive alternate for Phase 1 of the Remain Overnight Parking project at the San Antonio International Airport. Additionally in this action, City Council accepted a grant award from the Federal Aviation Program for the project. Chief Development Officer Shane Harbinson from the Aviation Department will brief the Airport Advisory Commission members on this project.

BACKGROUND INFORMATION:

The San Antonio International Airport requires additional gate capacity and airline parking capacity to support domestic and international air service while the new terminal

completes its design and construction, anticipated at the end of the March 2028. The projects will design and construct a new ground load facility on the southern end of Terminal A. This project will have three ground-loaded gates with the expansion capability to five gates as well as concession space, integration to the Federal Inspection Station (Customs), restrooms and apron work and striping for the gates. As the new facility will block the current location of Vehicle Gate 20, which allows vehicles access to the airfield, the projects will relocate the vehicle gate. The projects also includes phase 1 of the Remain Overnight Parking project identified in the Strategic Plan and supported in the Terminal Development Plan to provide additional aircraft parking at the San Antonio International Airport.

The briefing will provide the Commission members with details on this project.
