RECOMMENDATION:

Staff Analysis and Recommendation: Staff recommends Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

- 1. Consistency:** The subject property is located within the Downtown Neighborhood Plan and is currently designated as “Mixed Use” and “Residential” in the future land use component of the plan. The requested “IDZ-2” base zoning district with uses permitted for ten (10) dwelling units is consistent with the future land use designation.
- 2. Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.
- 3. Suitability as Presently Zoned:** The current “AE-1” Arts and Entertainment District and “AE-2” Arts and Entertainment District are an appropriate zoning for the property and surrounding area. The proposed “IDZ-2” Medium Intensity Infill Development would allow infill development and a more uniform approach to development in the area resulting in ten (10) dwelling units.
- 4. Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
- 5. Public Policy:** The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Downtown Neighborhood Plan: Geographically balance businesses, entertainment, community facilities, arts, culture and residential projects to enhance downtown’s urban character. Create design standards and a model downtown neighborhood. Create urban neighborhoods and increase the number of residents living downtown. Infill Development Zone (IDZ) provides flexible standards for developments. IDZ is to encourage and facilitate development on vacant, bypassed lands, or the redevelopment of underutilized buildings of structures, within existing built-up areas. IDZ may be approved as either a base zoning district or an overlay zoning district. Standards required in an IDZ district shall apply to either IDZ base zoning or the IDZ overlay district except where otherwise specifically stated. Typically IDZ gives flexibility to parking requirements, lots sizes, and setbacks. • The applicant’s request meets the Master Plan’s Policy for Growth Management – Policy 1g, because it makes physical improvements on an inner city property encouraging redevelopment and infill development. • The applicant’s request the Master Plan’s Policy for Neighborhoods - Policy 1a, because it rezones vacant or underutilized property in and around neighborhoods to encourage redevelopment that is compatible in use and intensity with the existing neighborhood.

6. Size of Tract: The subject property is 0.3825 acres, which could reasonably accommodate ten (10) single-family dwellings.

7. Other Factors: The applicant is proposing 10 units.
