Comprehensive Plan

Comprehensive Plan Component: Kelly/South San PUEBLO Community Plan

Plan Adoption Date: February 10, 2010

Plan Goals:

Objective 3.2 Attractive, Diverse Businesses: Attract and support a variety of businesses in a walkable, mixed-use environment.

Comprehensive Land Use Categories

Land Use Category: "Low Density Residential"

Description of Land Use Category: Low density residential land uses include single-family houses on individual lots. One accessory dwelling (granny flat or garage apartment) is permitted per lot and should reflect the appearance of the main structure. Certain non-residential activities such as schools, places of worship, and parks are appropriate within these areas and should be centrally located to provide easy access. Growth under this category of land use should be oriented toward the center of the neighborhood and located away from major arterials and high traffic areas and should ideally be within walking distance of elementary schools and neighborhood commercial uses.

Permitted Zoning Districts: R-4 R-5 R-6 R-20

Land Use Category: "Mixed Use"

Description of Land Use Category: Mixed Use allows for a concentrated, well planned, and integrated blend of residential, retail, service, office, entertainment, leisure, and other related uses at increased densities. This use pattern creates a pedestrian and transit oriented rather than an automobile-oriented environment. The integration of uses should occur within structures, as well as across the development site, with commercial uses situated primarily along the higher order roadways, and on the ground floor level of individual structures. Building and architectural design of a Mixed-Use development should stress quality architecture and urban design features, including parks/plazas and landscaping in a safe, attractive, pedestrian and bicycle friendly environment. A majority of the ground floor façade should be composed of windows. Centralized parking areas should be located behind buildings. Mixed Use Centers should be linked to adjoining land uses with safe, attractive and convenient vehicular and pedestrian access. Mixed-use development is preferred along arterials in a nodal pattern around a transit stop, where density would decrease towards the edge of the node.

Permitted Zoning Districts: NC C-1 C-2P O-1 O-1.5 O-2 MXD TOD IDZ RM-4 RM-5 RM-6 MF-18 MF-25 MF-33 MF-40

Land Use Overview

Subject Property

Future Land Use Classification:

"Low Density Residential"
