The "AHOD" Airport Hazard Overlay District, due to the location of the property and its proximity to an airport or approach path, does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration. The "HL" Historic Landmark, "HS" Historic Significant or "HE" Historic Exceptional overlay district designation signifies the historic architectural character or cultural significance of the structure or location. Historic Landmark designations do not affect the possible

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is located in the Downtown Neighborhood Plan. Application of a Historic Overlay is consistent with the goals and objectives of the plan for historic designation.
2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request.

5. **Public Policy:** The proposed rezoning does not appear to conflict with the following goals, principles, and objectives of the Downtown Area Regional Center Plan: · Goal 1: Preserve and Enhance Downtown’s Authenticity o Respect historic and culturally significant places, including significant examples of more contemporary and modern architecture
6. **Size of Tract:** The subject property is 0.1069 acres, which reasonably accommodates the existing residential mixed uses and application of a historic landmark designation.
7. **Other Factors** The request for landmark designation was initiated by the City Council. The owner does not support designation. On March 17, 2021, the Historic and Design Review Commission approved a Finding of Historic Significance for the property at 828 Nevada. On April 15, 2021, City Council approved Resolution 2021-04-15-0027R initiating a change in zoning for the property to include a historic landmark overlay. As a step in the zoning process, a recommendation regarding the proposed designation was required from the HDRC. On June 16, 2021, the HDRC recommended designation.
