RECOMMENDATION:

Criteria for Review: According to Section 35-421, zoning amendments shall be based on approval criteria below.

1. **Consistency:** The subject property is not located within a Neighborhood, Community, or Sector Plan therefore a finding of consistency is based on existing and surrounding zoning and uses.

2. **Adverse Impacts on Neighboring Lands:** Staff does not find evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. The surrounding area has dense single-family housing, and other properties zoned “IDZ” are within four blocks of the property to the north, south, and east.
3. **Suitability as Presently Zoned:** The current "R-4" Residential Single-Family District is an appropriate zoning for the property and surrounding area. The proposed "IDZ-2" Medium Intensity Infill Development Zone District is an appropriate zoning for the property and surrounding area. The proposed zoning maintains the residential nature of the surrounding neighborhood, while providing additional housing in the area.
4. **Health, Safety and Welfare:** Staff has not found indication of likely adverse effects on the public health, safety, or welfare.
5. **Public Policy:** The subject property is not located within a Neighborhood, Community, or Sector Plan.
6. **Size of Tract:** The subject property is 0.2925 acres, which could reasonably accommodate residential development.
7. **Other Factors:** The applicant proposes four (4) residential units per a prescribed site plan.
