**RECOMMENDATION:**

Staff Analysis & Recommendation: Staff recommends Approval.

The proposed land use amendment from “Suburban Tier” and “Natural Tier” to “Suburban Tier” is requested to rezone the property to “PUD MF-18” Planned Unit Development Limited Density Multi-Family District. The proposed “Suburban Tier” land use designation is appropriate and compatible with much of the subject property and properties throughout the area. The subject property is vacant, as are the properties to the north and south. The residential development will be a continuation of the abutting subdivision to the northeast.

Sector Plan Criteria for review:

- The recommended land use pattern identified in the North Sector Plan inadequately provides appropriate optional sites for the land use change proposed in the amendment.
- The amendment must constitute an overall improvement to the North Sector Plan and will not solely benefit a particular landowner or owners at a particular point in time.
- The amendment must uphold the vision for the future of the North Sector Plan.
- The amendment will not adversely impact a portion of, or the entire Planning Area by:
  - Significantly altering acceptable existing land use patterns, especially in established neighborhoods.
  - Affecting the existing character (i.e. visual, physical, and functional) of the immediate area.
  - Creating activities that are not compatible with adjacent neighboring uses.
  - Significantly alter recreational amenities such as open space, parks, and trails.
